Research Interest

My research interest is in the area of politics and diplomacy in the Second World War, mainly in the European and Mediterranean theaters.

Teaching Philosophy/Research Interests

My teaching philosophy is creating a stimulating and safe environment to develop not only the subject knowledge of the students but also their analytical thinking skills. I also believe in incorporating a variety of technology into the course work to introduce students to the skills needed to utilize devices and programs as well as the ability to sort and evaluate digital information.

Message to Students

Attend class every single day, actively participate, complete the readings and notes, and always put out your best effort.
