Question:	What did you think were the best things about this course?	
Response Rate:	85.71% (6 of 7)	
1	The hands on learning, the labs mostly. I learn better when I am doing rather than just listening and that helped me more than the lectures.	
2	Teacher student communication in a timely manner	
3	Relating real life examples to the course material in lecture helped	
4	I liked the fact that the class was very interesting and interactive, I got to learn a lot of new things about Anatomy and Physiology. The class time and duration was fantastic, the professor is very knowledgeable.	
5	I learned more easily with his teaching techniques, he broke the material down in a way that I could learn and apply. He made class interesting and had good jokes. Would recommend to take him as an instructor over any other! He encourages a friendly atmosphere to learn in.
