Question:	What did you think were the best things about this course?	
Response Rate:	50.00% (5 of 10)	
1	The syllabus explains exactly what is due and the professor's reminders on the announcements part helped out a lot.	
2	Simple instructions with both textbook and video examples	
3	Professor was easy to get in contact with and was very helpful.	
4	It felt that whenever I had a question the instructor was sitting at their computer or phone waiting to reply to my question. It saved me a lot of time not needing to wait for a response to some silly question I had.	
5	I like the structure, everything due Sundays with two days for exams	

Question:	What were the course's weaknesses and areas in need of improvement?	
Response Rate:	40.00% (4 of 10)	

1	NA	
2	MyMathLab was expensive	
3	MyMath is awful in how it evaluates student responses, there is no feedback within the software as to what the student did wrong and there is not partial credit requiring the instructor to waste their time deciding if any corrections are required. I fully understand that the instructor has ZERO to do with how this works, but I feel it needs to be said in any case.	
4	It is hard to understand the material clearly since we didn't have much videos or PowerPoints to study from, other than the exam reviews.	

Question:	Positive aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):	
Response Rate:	40.00% (4 of 10)	

1	NA	
2	NA	
3	I am able to take my "school" where every I need, was very helpful as I went on vacation during my time.	
4	Everything was set up in an orderly manner and on time.	

Question:	Negative aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):	
Response Rate:	40.00% (4 of 10)	

1	nothing	
2	NA	
3	NA	
4	Internet connection was an issue some times	

Question:	Please add any additional comments you may have about this course:	
Response Rate:	40.00% (4 of 10)	

1	none	
2	NA	
3	My Math does have some positive aspects about it. Mainly the how to solve various questions that in the past (out of the book learning) would have had a much longer turn around time to get the help needed to understand and figure out what is happening. It also provides immediate feedback while the problem is still fresh in the mind allowing for corrections to be meaningful and have an impact.	
4	Fast paced, but good if you want to get ahead
