Question:	**What did you think were the best things about this course?**
Response Rate:	90.00% (9 of 10)

1	the teacher is clear and consistent
2	The teacher
3	The structure of our book work and projects were laid out so each chapter correlated with what we would do on our different projects making it easy to understand what was expected of us on each project.
4	Stephanie is a fantastic professor. She breaks down the lessons into manageable and helpful sections so it is easier to consume. I loved the way she set up the projects to build upon each other.
5	It was a very easy-to-learn course. The professor made it very easy to understand and learn.
6	I think one of the best things about this course was the lessons, they were all following the book so they were easy to do and if you couldn't do them at that time for some reason you could go home and do them there. Ms. Reid is also an amazing teacher, she's really nice and always down to help people if they need it.
7	I really enjoyed the instruction. Ms. Reid was well organized and that helped me to understand what was expected of the students and when it was expected. She helped us think about and prepare for the demands of a design job and develop the necessary skills. I would definitely take a class from her again!
8	I liked the environment, and felt open around my peers and instructor.
9	Getting to create something

Question:	**What were the course's weaknesses and areas in need of improvement?**

	Response Rate:	70.00% (7 of 10)	

1	the projects	🔍
2	n/a	🔍
3	The teacher only had one monitor. Our instructor mentioned they where more efficient and acclimated to using multiple monitors, so perhaps giving them access to another moniter could make their teachings even more efficient; Not that they are currently lacking in efficiency, however.	🔍
4	Nothing	🔍
5	N/A	🔍
6	Having more interactive assignments to get more practice.	🔍
7	Google chrome needs to be updated on the classroom computers. Potentially other browsers as well but having updated web browsers is very helpful in a web design class.	🔍

Question:	Positive aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):
Response Rate:	70.00% (7 of 10)

1	the use of a free software I put on my personal laptop	🔍
2	N/A	🔍
3	I appreciate having access to excellent computers and industry standard software. It helps students be better prepared for the workforce.	🔍
4	Everything works very well!	🔍
5	Computers run fast	🔍
6	Computer software, the teacher, the classroom arrangement	🔍
7	Classroom just generally gave off good vibes. I enjoyed being around my peers and instructor, and just generally being in the class. Made it a lot easier to take in our lessons.	🔍

Question:	Negative aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):
Response Rate:	70.00% (7 of 10)

1	nothing was confusing	🔍
2	n/a	🔍
3	Some of the computers would freeze up and not work when some students would try and login or the mouses wouldn't be working.	🔍
4	Some computers didn't work properly sometimes and would not allow people to log in for days	🔍
5	Since this program (the entire graphic arts program really) has potential to use so many plugins and software packages it would be helpful to have a quicker turn around with IT for those things.	🔍
6	N/A	🔍
7	I feel like most users utilize Windows computers, while our classroom only used Mac computers. This made the start of the class more uncomfortable for me and some of my peers. I believe having multiple different computer brands in one room might fix this issue.	🔍

Question:	Please add any additional comments you may have about this course:
Response Rate:	60.00% (6 of 10)

1	no	🔍
2	The teacher is wonderful and one of my personal faves.	🔍
3	Thank you for reading my course evaluation! It was a pleasure having you as my instructor. Please have a nice day!	🔍

4	Staphanie is an inspiring teacher. She truly has a passion for her job and it shows. I came into this program with a basic knowledge of HTML and CSS and she helped me to better understand both and to feel way more confident in my coding abilities.	🔍
5	Mrs. Reid was clear and concise and made sure we not only had a lecture every class but even going as for to do parts with us so we could get a better idea of the information she was showing us. I have more of kinesthetic learning style so this helped me learn the material faster.	🔍
6	Best teacher ever! Professor Reid is the best no doubt about it.	🔍
