Question:	What did you think were the best things about this course?	
Response Rate:	92.31% (12 of 13)	
1	The teacher	
2	The professor was the best thing about this course. Anatomy and physiology is a difficult class but she was able to keep the class motivated, engaged, and cared about the students success.	
3	Refreshing my knowledge	
4	Professor Smith's interactions with student's and willingness to repeat whatever and however many times necessary to help everyone understand the material.	
5	Professor Smith and the openness she has with us students. No question is a dumb question and she will make sure we all understand what she is teaching. She is hands down THE BEST professor I have ever had. I also appreciate that she uses different tools to explain things.	
6	Prof. Smith is an animated and passionate professor! I have taken A&P1 3 times now and A&P2 twice, she is the best instructor I have had for any A&P class. Hands down! She teaches with a variety of styles all at the same time! She communicates well and will explain a concept differently multiple times until the concept is understood. Many instructors will only repeat themselves or only use one other way of explaining the concept. It is quite obvious that Prof. Smith is passionate about teaching, her students, and the subject she teaches! I have also never had a professor give the option of a mental health check-in. Having an instructor to was generally interesting in knowing if I was okay is very comforting and helps. Especially as a student with a lot going on at home, with my kids, my work, failing health, and going through a separation from my husband. Having someone reach out and generally care made a world of difference and gave me a lifeline I didn't know I needed. I could go on!	
7	Learning the things that affect our body	
8	I was very nervous about taking such a fast-paced course, let alone Anatomy and Physiology, but Professor Smith was awesome. She made learning so much fun with her energy and love for the subject. She challenged us each day and made me have a desire to actually study and learn. I love that she had us put a positive affirmation statement at the top of every test. It really helped to change my outlook and boost my confidence.	

9	How the professor explains is good	
10	How the professor engaged with us students to have a better understanding of course material by actually giving us examples of real life situations.	
11	Engaging and fun teaching style. Professor readily available for students. Professor genuinely cares about students, their grades and understanding material.	
12	All the materials we were given in order to study the content	

Question: What were the course's weaknesses and areas in need of improvement?		
Response Rate: 61.54% (8 of 13)		
1	nothing	
2	There were no weaknesses at all within the course it's self.	
3	Nothing	
4	None	
5	No weaknesses	
6	I cannot think of any weaknesses. She is doing a wonderful job.	
7	Honestly, with the short summer class, I don't know how this could be improved! I was amazing at the quality and quantity of the material taught! There were things covered in this accelerated class that I had not learned in my full semester A&P classes before!	
8	5 weeks is not a reasonable time frame for this sort of class.	

Question: Positive aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):		
Response Rate: 76.92% (10 of 13)		
1	the tables were cool	
2	love the new facility	
3	lab materials and structures of body parts	
4	Very organized	
5	The online textbook used with this class was AMAZING!!! I am extremely dyslexic and to have a book that had a built-in screen reader was A GAME CHANGER!!!! I was very concerned about having an online book and was looking into renting a hardcover to use as online books are normally very hard for me to use. After Prof. Smith gave a quick walk-through of how to use and what all our online textbook could do, I was good to go and even EXCITED to use this online book!	
6	The facility made it easier to feel comfortable and prepared	
7	The classroom was always clean and I love the way it was set up.	
8	Lots of hands on time with lab models. Updated steam building is great!	
9	Learning aspects were well maintained throughout this course supporting both teaching and learning.	
10	I am enjoying the new building and all of its perks.	

Question: Negative aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):		
Response Rate: 61.54% (8 of 13)		
1	nothing	
2	There were often missing pieces to our lab materials	

3	The only thing I wish we had this summer was an open lab. To have the ability to come in and look at models or slides again in an open lab with any professor. I had that at other schools, and that was very helpful. Even if there was an open lab time for a couple hours once a week would be nice and so helpful!	
4	Nothing	
5	None	
6	No negatives at the moment.	
7	No negative aspects.	
8	It was a little hot on Mondays	

Question:	Please add any additional comments you may have about this course:
Response Rate:	61.54% (8 of 13)

1	it was fun	
2	This is not the first time I have taken this course but I feel like I've learned so much more during this class than before. I love Professor Smith. She makes me excited about my future.	
3	Professor Smith is an incredible asset to the campus.	
4	Professor Smith is a great teacher who made a difficult course in short amount of time so much fun. The physical atmosphere of her classroom was always positive, promoting new relationships to assist with learning.	
5	It is difficult but with the right professor it can change	
6	I recommend this course and professor for any other students	
7	I recommend this course and professor highly. It was a very hard course for 5 weeks but the time went by quickly because I was thoroughly engaged every class meeting.	
8	Good course glad I took the summer course.

Question: What did you think were the best things about this course?	
Response Rate:	100.00% (9 of 9)
1	This course was a lot to study but an interesting one. 
2	The teaching style made it easy to understand the material and the classroom was a safe space to speak our mind 
3	The repetitiveness from my professor she made sure we knew our information. The classroom was a free space room no judgments so it was helpful to ask any questions and not be afraid too. 
4	The labs that we did in class 
5	The best thing about this course is most definitely the instructor. She is very knowledgeable and takes her time in explaining each chapter, which is extremely helpful especially in a fast paced course. She's not afraid to give real life examples and even draws from her own experiences in order to relay the information. 
6	The best thing about this course was that it was a safe space to express our thoughts and feelings. It made learning more enjoyable because there were no stupid questions. 
7	THE TEACHER!! 
8	I think the best aspect of this course was Professor Smith. I tried my best, however, I am not sure I would have done as well as I did if not for her. She was engaging and through her teaching showed me that I can succeed. 
9	I really enjoyed the labs. Very helpful. 

Question:	What were the course's weaknesses and areas in need of improvement?	
Response Rate:	88.89% (8 of 9)	
1	to study more	
2	none.	
3	more time to study and practice the material	
4	There were no weaknesses for this course because it was straight forward.	
5	Nothing at all	
6	N/A	
7	I can't think of any	
8	I believe this course was at its best.	

Question:	Positive aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):	
Response Rate:	88.89% (8 of 9)	
1	The room always had everything that we were going to need for lab already out and ready.	
2	The professor is a great one! Such a very get-along person. Easy to understand.	
3	Spacious workspace	
4	No judgment zone, great atmosphere, great teamwork.	
5	I really liked the teacher!	
6	Everything seemed to work just fine.	
7	Everything worked perfectly, in my opinion.	
8	Classroom arrangements were no problem at all	

Question:	Negative aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):	
Response Rate:	88.89% (8 of 9)	
1	none.	
2	n/a	
3	Nothing	
4	Nothing	
5	None.	
6	No negative aspects.	
7	N/A	
8	I do not have anything negative to say.	

Question:	Please add any additional comments you may have about this course:	
Response Rate:	77.78% (7 of 9)	

1	none.	
2	n/a	
3	The course was great, I learned a lot and the professor was really helpful	
4	Thank you, Professor Smith.	
5	I would recommend this professor to every student.	
6	I really enjoyed the teacher. Even though it was a 4 hour a day course she really did her best in keeping us on track.	
7	I love this teacher more than anything! I wish she could be my professor for every class I take!
