Question:	What did you think were the best things about this course?
Response Rate:	40.00% (2 of 5)
1	That I was able to get a Math Tutor at the Tutoring Center. Mr. Kirk and Mr. Gene were very helpful.
2	Pearson has a great layout and helped me learn

Question:	What were the course's weaknesses and areas in need of improvement?
Response Rate:	20.00% (1 of 5)
1	I believe that the instructor should have all the chapters upload from the beginning of the class semester, not week by week. Like right now I have caught up with my assignment and feel like I can go ahead but do not have next weeks notes or lecture videos. also it is a fast pace class and if you are not a person that does well in math it is a class you would need to refresh on fractions, decimal and percentage if you are not good at math in general. Also I email several student started falling behind and struggling because the My Lab Pearson was down for maintenance for two days. the instructor change due date but catching up was hard.

Question:	Positive aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):
Response Rate:	20.00% (1 of 5)

1	The good thing for me is that as a veteran I can go to the Veteran center to get help with counseling(with anxiety). I also was able to go to the Tutoring center, everyday to get help or just be able to use the copier and computer. which I email the students about going there. I did get to meet up with a student, she was stress out, said the instructor was not getting back to her.

Question:	Negative aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):	
Response Rate:	20.00% (1 of 5)	

1	I believe that the MyLab Pearson should do maintenance checks before the semester starts. also the instructor said that there was alarm send out several days before the maintenance and that we should had assignment done before the maintenance. then maintenance took two days to get fixes.

Question:	Please add any additional comments you may have about this course:	
Response Rate:	20.00% (1 of 5)	

1	this course was very stressful, I believe this should only be taught in person. I feel like I was on the computer everyday. I also realize that alot of people are not good with online testing that are timed. I know for me I was doing good with the assignments but not well on the exams or quiz. I think the assignments, notes and lecture videos for the course should be uploaded at the beginning of the course,also if students want to go ahead they can. Also taking 20% off for late turn in of assignment, not motivating at all. Especially if someone is struggling with the assignment and cant get help or to the college to get tutor. I understand that we all have lives and that we are college students(like having a job) that we have to make adjustment to get our assignment done, but for people that need help with the work or even not good with reading(comprehening the work fast enough) willhave trouble with the assignments.
