Question:	**What did you think were the best things about this course?**
Response Rate:	33.33% (**2** of **6**)

1	The professor	🔍
2	The excitement the instructor had for the subject matter that was being covered, for me that goes a long way.	🔍

Question:	**What were the course's weaknesses and areas in need of improvement?**
Response Rate:	33.33% (**2** of **6**)

1	This course should be split into 2 separate classes, Pathophysiology and Pharmacology. This combination of classes is atrocious. Tests with 4 and 6 chapters on them and not enough review material to really learn any of them well. The end of chapter review exercises in both books was not enough to reinforce any of the material. MindTap should have been utilized with this course. A 1500 word research paper and a power point was excessive considering the amount of reading from 2 books and there was no time allotted to work on it. We just had to find time. This instructor is myopic.	🔍
2	Nothing	🔍
