Question:		What did you think were the best things about this course?
Response Rate:		50.00% (3 of 6)
1	In regards to the preparation for state boards, I received excellent instructions and feedback regarding my performance. All of my questions have been answered, and I am fully prepared to take the boards.	
2	Hands down Mrs. Davis. I have never had an instructor like her. She is dedicated to her students.	
3	Being able to be taught thoroughly and asking for help was easy to do because Ms. Davis is very approachable.	

Question:		What were the course's weaknesses and areas in need of improvement?
Response Rate:		50.00% (3 of 6)
1	We only have 7 days in this class where we come to school for lab skills. One of those days was spent on packing our bags for state boards/walking through the steps, and another day was devoted to learning to do lash extensions. I find it difficult to understand why they incorporated so many additional lab skills in this final semester with so little time to complete them. I find that needing to complete 24 skills and getting 5 signatures is a bit excessive, especially with other students still needing to complete tests, everyone going over the practical exam for the first hour of every class, and some also struggling to do this new skill as well. Perhaps learning the lash extensions earlier in the semester in another class or taking off some of the skills that we've done since the first day of school (brow/lash tinting and brow/lip waxing) would have been helpful.	
2	N/A	
3	I wish we could spend more time on the study of the skin. That is not her fault at all. It's just the way the class is set up because of covid 19. I feel Mrs. Davis give us the best instruction to pass the state test with the very little time she was given.	

Question:		Positive aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):
Response Rate:		66.67% (4 of 6)
1	a lot of space to work!	
2	Mrs.Davis is the absolute best teacher 100% hands down!	
3	I really like the facial beds, as they are easy to use and manipulate to get the correct height for good posture. The rolling carts are small, but decent if you organize your station to maximize efficiency. The additional products we need for facials that are provided by the school are easy to find.	
4	I did like the equipment that the lab this given. Beds, steamer etc.. it was easy to use and maintain.	

Question:		Negative aspects of the facilities (classroom arrangements, computer hardware/software/support, etc.):
Response Rate:		66.67% (4 of 6)
1	The A/C not working making it hard to work	
2	One negative aspects of the facility has nothing to do with the actual classroom or arrangement. It was the lack of air conditioning and equipment available to us after the move from the old building. Biggest mistake College of the mainland did during this course.	

3	It is often too hot and very uncomfortable in the lab room where we do our facials and in the classroom where we take our exams.	
4	<p>-A/C was not consistent and went days without it sometimes.</p> <p>-The dispensary was down the hall from the salon so if we needed water or any type of material in the dispensary it was not easy to get to.</p> <p>-The bathrooms smelt like porta potties and flushing the toilets were not easy so there is always things left over in the toilet.</p> <p>-The night class teacher never made sure things were put up properly in the salon or cleaned. There was wax left over all on the tables, there was wax on the floors so it was sticky and sometimes the towels warmers were left on or closed over night so they kind of stunk.</p>	

<b>Question:</b>	Please add any additional comments you may have about this course:	
<b>Response Rate:</b>	33.33% (2 of 6)	
1	This has been an informative course, and Ms. Davis has done an excellent job teaching it. I look forward to finishing and passing my state boards.	
2	I do wish there was more support outside of the classroom from other facilitators.
