Student Hours: Students may email me any time and I will respond within 24 hours inshallah, maybe longer on weekends, but usually I respond much sooner. If you cannot reach me for some emergency, contact our Program Assistant at 409 933 8348.

Office hours are in Room F-132, 830 – 930am, and Friday mornings 830 – 1130 am.

Required Textbook: No text required, however materials appropriate to assignments are required. Students are advised to discuss any problems regarding supply acquisition with the instructor.

Supplies: Students must have the minimum supplies indicated on the supply sheet, however supplies also depend on project specifics and work habits. Lack of supplies may negatively impact project grades. Additional experimentation with materials may count as extra credit at the discretion of the instructor.

Course Description: Exploration of ideas using painting media and techniques.

Student Learner Outcomes:

- 1: Generate paintings which demonstrate descriptive, expressive, and conceptual approaches.
- 2: Utilize varied materials and techniques with informed aesthetic and conceptual strategies.
- 3: Analyze and critique paintings verbally and/or in writing.
- 4: Relate painting to design, art history, and contemporary artistic production.

Determination of Course Grade/Detailed Grading Formula:

- + Other than the first week of class, students will receive a single letter grade for each week of the 16-week semester = 15 grades. Weekly grades will relate to projects, assignments, stages of completion, preparation, and studio participation.
- + Students are expected to minimally invest 6 hours a week of studio lab time to the course.
- + If students are ill, or must quarantine, project requirements will still need to be met. Students may work from home with consent of the instructor. Quarantining students will need to be able to photograph their work and send to the class and instructor via COM email. It is the student's responsibility to make arrangements with the

instructor in case of illness, quarantine, or other valid reasons not to be in class. Unless other arrangements are made, absences may negatively affect weekly grades

+ Students are expected to track and average their weekly grades. For example, the average of an A and an F is two C's.

+ Additional studio time/homework may be needed to achieve higher project grades. Other than the final project/critique all assignment grades must be resolved before the last two weeks of class.

+ Maintaining supplies is an ongoing homework assignment. Lack of supplies/preparation may result in the reduction of a weekly grade.

+ Some assignments may require research time outside of class.

+ Students are required to keep a visual journal (sketchbook) relating to the course. Completion of the journal will count as one of the weekly grades toward the end of the semester.

+ students may propose modifications to assignments in support of course objectives and a collaborative learning environment.

+ The instructor may consider extra credit for students who significantly contribute to an inquisitive and collaborative learning environment, participate in external exhibitions, or conduct relevant research at the MFAH or Menil Collection for example.

+ Students are expected to develop skills related to the language of art. Other than the final project, students may rework or re-do projects prior to week 15. The Final Critique is conducted on the last class day. No artwork production will be conducted on Critique day.

“D” = Insignificant effort

“F” = Artwork is unattempted or missing

Creative Behaviors:

The Instructor places a high degree of emphasis on creative processes that may or may not result in a qualitative product. While luck is a factor in achieving qualitative success, **effort** and **intellectual risk** is the typical driving force behind superior achievement. Along with any given project, the instructor will also give consideration to **creative strategies and behaviors** such as: Flexibility, adaptability, resistance to premature closure, willingness to take intellectual risks, iterative prototyping, willingness to revise work in response to critical analysis, an ability to synthesize diverse ideas into a unified whole, inquisitive exploration of ideas, self-awareness in forming a personal esthetic, willingness to edit or abandon ideas in favor of other directions, originality, innovation, intrinsic motivation, willingness to suspend judgment, and an ability to identify and exploit the intellectual and physical resources at hand. In many ways, creativity may be summed up by an awareness of the many choices inherent within a process of making something new.

Given the effort and risk involved in creative attempts to transcend the mediocre and the predictable, the **instructor may guarantee a “B” or higher** on projects in exchange for student demonstration of these creative behaviors.

Consideration will also be given to students with limited prior experience in image manipulation and visual literacy. **Dynamic progress is expected of all students regardless of native talent or prior experiences in creative imaging.**

Success Tips for Students in Studio Courses:

- + Vary your perspective
- + Wander in and out of your comfort zones
- + Step back frequently & put your art up on the wall
- + Break away from problems and return with fresh eyes
- + Frequently invite criticism from peers and instructors. Practice forming arguments.
- + Work fast and make mistakes in developmental stages. Develop images at the speed of thought.
- + Become comfortable with ambiguity, confusion, and indeterminacy when developing complex ideas.
 - + Frequently look at peer art and reproductions to borrow ideas.
- + Question entrenched habits (don't stay in the same place, think of imaging as game design)
- + Expand vocabulary via critical analysis
- + Get frequent critiques from peers and instructors – learn the names of your classmates
- + Find mentors and collaborators – form study groups

Course Outline: (subject to revision within the context of a collaborative studio environment)

Week 1: Syllabus review: Supply acquisition. Discuss Journal.

Prepare various grounds, textures, glazes, and scumbles on recycled MDF panels

Week 2: Continue preparing grounds. Create a value gradient from top to bottom maximizing all possible color combinations. This painting, exploring color, will be added to as the semester progresses.

Week 3: Create a simple still-life of a spheroidal subject using ideal light.

Week 7: Students will design a complex still-life using overlapping subjects as a vehicle for exploring color and expressive factors.

Week 8: Continue week 7 still-life

Week 9: Portrait assignment using a photocopy to make a 'cartoon' transferring a photographic portrait onto a panel. Create a portrait in grisaille.

Week 10: Portrait continued

Content Information: This is a college level course. Many textbooks, art periodicals and original artworks in the COM art studios, public libraries, websites, and museums, depict nude figures, cadavers, anatomical structures as well as contemporary and historical artifacts depicting content referencing sexuality, biology, propaganda, depictions of violence, religious iconography, ambiguities, symbolisms, or other cultural contents, forms, and subjects that some viewers may find offensive. Students are expected to view artifacts critically. Art serves all masters. Rather than turn away from discomforting images, artists have a social responsibility to formulate a critical response to the entire spectrum of images, designs, and artifacts of the human imagination. Class discussions may address such content when it relates to art production or other research appropriate to academic courses. Studio courses may additionally analyze nude models and skeletal remains within the parameters of traditional studio practices. The sensitivity of the individual student will be respected and accommodated to the maximum extent possible. Feel free to initiate discussions regarding course content.

Studio Safety for Persons and Artwork

- + BE AWARE: of tripping hazards, extension cords, sharp objects, lifting, falling, or things falling on you.
- + TOXICITY: regarding any art supplies. Read labels. Spray fixatives must be used under the vent hood or outside. Ventilation required for OMS solvents (oil painting).
- + BLOOD: cutting yourself creates a messy biohazard and interrupts teaching and learning for others. Students will be fined \$5 dollars (which will go to the art scholarship fund) if they cut themselves.
- + DUST: wet sand only, no techniques creating charcoal clouds or pastel dust.
- + CLEAN work areas especially if using oily substances that can contaminate acrylic paintings, causing delamination.
- + FOOD: wash hands after lunch. All studio surfaces must be free of oils & grease residue.
- + Treat ARTWORK (and all persons) with respect and care. Store artworks in racks, lockers, or shelves. Label artworks. Return still-life and other items top their place
- + SINK: no paint globs or trays left in the sink.

- + ELECTRICITY: Turn off lights and vents after use. Clean up broken light-bulbs and report any possibility of glass shards to the instructor.
- + ACTIVE SHOOTERS: Run, Hide, Fight! Know what room you are in at all times.
- + Follow COM Covid-19 policies on masking, washing, and distancing

Phones: Students are expected to be able to access internet images and other information relating to the course. Devices must be used professionally. The instructor believes Wikipedia is one of the greatest learning tools ever invented. No photos of models are allowed. Photos of students are with their permission.

Institutional Policies and Guidelines

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook. <https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf. *An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.* https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf
