Job Tasks (Daily work)		
Work Conditions/ Environment		
Majors/Areas of Study at COM related to this career		
Other Majors/Areas of Study beyond COM

Your Career Choice	<b>After analyzing the above data, indicate which career is the best fit for you:</b>	

Optional Resource: Occupational Outlook Handbook at [www.bls.gov/ooh/](http://www.bls.gov/ooh/)

## **Career Project Part 2 (25 points) Submit in D2L**

Based upon the information you collect on the two careers (from Part 1), type a 2 full page double-spaced Times New Roman (MLA Style) paper elaborating on the pros and cons of each career. Be thorough and provide information on each detail gathered in Career Part 1. Conclude with a paragraph stating how the career you chose is the best fit for you. Your paper should be at least three paragraphs. Citations are required for using information beyond the information gathered in Career Part 1.

¶ 1: Introduction (explain what two careers you are considering and why)

¶ 2: Second career choice (describe pros & cons and explain why you didn't choose this career based upon the details gathered)

¶ 3: Chosen career (describe the pros & cons and explain why you chose this career based upon the details gathered)

## **Career Project Part 3 (25 points) Submit in D2L**

The idea of social responsibility is built on a system of ethics, in which decisions and actions are evaluated before proceeding. If the action or decision causes harm to society or the environment, then it would be socially irresponsible. Every individual has a responsibility to act in a manner that is beneficial to society and not solely to the individual.

In 5-10 sentences, describe in detail how your chosen career plays a role in social responsibility. Be sure to start your paper by stating your chosen career.

Talking to individuals in your career choice, researching common problems, and looking at current events may help you formulate your ideas but is not required.

## **Career Project Part 4 (25 points) Submit in D2L**

Indicate how you will use each of the following skills in your chosen career. Review each chapter and what the day to day looks like for your profession prior to completing your answer. Use examples and state specific strategies. You should have a minimum of four sentences for each topic.

*Note:* You are not describing how you will use the skill in college to get to your career but instead how you will use the skillsets on the day to day of your job.

### **My Career Choice:**

Personal Responsibility:

Self-Management and Motivation:

Emotional Intelligence:

Interdependence:

Lifelong Learning:

**Example for an Art Therapist:** (found on the following page)

Lifelong Learning: I will need to use critical and creative thinking when creating art projects for each of my clients. I must choose a task that will keep the patient's interest and challenge the patient without frustrating them. I will need to ask probing questions of my patient to ensure that the therapy is working for him or her. At times I might need to be ready with a persuasive argument as to why a particular art therapy is being used to explain to the patient why this therapy is being used. I will act ethically by following all HIPPA laws and keeping conversations private between my patient and the medical staff. I will constantly seek out professional development through associations like American Art Therapy and the National Coalition of Creative Arts Therapies to stay current on best practices. I feel this work will give me purpose and will help me to continue to strive to be a self-actualized individual.

## **Career Project Part 5 (100 points)**

Using the information from the previous parts of this project, prepare a 5-minute presentation about your career choice. Describe your career and how you will obtain a position in that career. Refer to Career parts 1-4 while building your slideshow. Get creative! Ex: props, dress the part, tell a relevant story, reference current events, audience interaction, etc.

Build a PowerPoint Presentation of 5 slides **using bullet points only**. During your presentation you will elaborate on the bullet points in your PowerPoint.

**Slide 1:** Your Name with Chosen Career and various pictures of career

**Slide 2:** Details on your chosen career. Bullet the following:

- Occupation Description
- Training
- Work Conditions
- Earnings
- Job Outlook
- Skills you are strengthening
- Fun Fact(s)

**Slide 3:** Indicate what career you chose and why.

(Why did you choose this career over any other career option?)

**Slide 4:** List 3 bullet points describing how your career positively impacts society.

**Slide 5:** Bullet point each topic and how it pertains to your career. See example below:

### Psychology Professor

Personal Responsibility: strong curriculum

Self-Management and Motivation: detailed syllabus

Emotional Intelligence: calm conversations with colleagues and students

Interdependence: class activities

Lifelong Learning: American Psychological Association

Practice your presentation and be prepared to present. You must be present on all presentation days.
