

## Friendswood High School, Lab #2406 Monday – Friday 1<sup>st</sup> and 2<sup>nd</sup> period

**Instructor:** Jim Williams – jwilliams106@com.edu

Program Director: Sarrissa Ryan - sryan4@com.edu

Student Hours and Location: By appointment only, please contact the instructor

**Required Textbook/Materials:** MyLab Brady Online Account (Pearson) Emergency Medical Responder – First on Scene 12<sup>th</sup> edition (LeBaudour and Laurelle)

## **Course Prerequisites & Co-requisites:**

- 1. Students must show proof of immunizations
- 2. Students must be recently certified in BLS Health Care Provider CPR through AHA or HSI
- 3. Students must pass a criminal background check.

**Course Description:** This course prepares students for an Emergency Medical Responder (EMR) or an Emergency Care Attendant (ECA) certification.

## **EMSP 1205 Emergency Care Attendant**

(lecture 1, lab 4, credit 2, WECM) Preparation for an Emergency Medical Responder (EMR) or Emergency Care Attendant (ECA) certification.

## **Course Rationale:**

This course gives the student a foundation for the EMRs' scope of practice.

Areas of study include medical-legal issues, EMS systems, EMS safety and the well-being of the EMR, public health, infectious disease, disease prevention, documentation, therapeutic communication, additional pathophysiology, and psychomotor skills required for prehospital care.

#### After this unit, the student will be able to:

- 1. Students will be able to apply life-saving knowledge (cognitive) at the EMR Level
- 2. Students will be able to demonstrate life-saving techniques (psychomotor) at the EMR Level
- 3. Students will display the proper attitude (affective) expected of an EMR.

## **Course Student Learning Objectives/Outcomes:**

Upon completion of the course, the student will be able to:

Student Learner Outcome		Maps to Core Objective	Assessed via this Assignment	
<ol> <li>Cognitive: Students will be able to apply life-saving knowledge at the EMR level</li> </ol>		Empirical and Quantitative Skills: to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions	Departmental Final Exam	
2.	Psychomotor: Students will be able to demonstrate life saving techniques at the EMR level	Teamwork: to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal	Final Skills testing	
3.	Affective: Students will display the proper attitude expected of an EMR level	Communication Skills: to include effective development, interpretation, and expression of ideas through written, oral, and visual communication	Final Affective Evaluation	

**Specific Tasks Accomplished:** EMRs require a significant knowledge base to be effective. Lectures and discussions (including demonstrations and AV aids) are the primary modes of communicating knowledge objectives. Learning significantly increases when students review the chapters and complete quizzes and homework before class. Students should also be prepared to engage in group and class discussions to assimilate with other materials in lab demonstration of skills.

**Course completion requirements:** A minimum passing grade of a "C" is required to complete the course and must be maintained to start clinical rotations.

The passing score for this course is a 'C' as defined by the COM EMS Program. You must also pass each midterm exam and the final exam in accordance with the "Exams" policy described below. Establishing eligibility for EMR certification also requires successfully meeting all didactic and skills requirements through verifying all required skills, demonstrating appropriate affective behavior, and demonstrating required clinical competencies. To establish eligibility to test the certification examination, you must meet all requirements established by the program you are enrolled in. Meeting the minimum requirements established by the Texas Department of State Health Services does <u>NOT</u> establish eligibility for certification.

## Lab and Skills Completion Requirements

• To complete the semester, students must obtain certain skill competencies, formative scenarios, summative scenarios, and team leads as part of the program. Progress Reports will be sent out before midterm and then again before the final. The students are responsible for keeping track of their grades and progress through the required skills.

#### **Exam Requirements:**

The final exam has six subscales (Preparatory, Airway and Patient Assessment, Medical, Trauma, Special Populations, and EMS Operations). Students must score at least 75% on the midterm and final exams to pass the course. Students may retake the midterm or the final exam if their average before the exam is at least 70%. Students must pass the final and midterm exam retest to pass the class. The highest grade you can achieve on the final or midterm exam retest is 75%.

If a student does not score at least 70% on one of the subscales of the final examination, that subscale must be retested and passed with a score of at least 70%. Students who fail more than two subscales must retake the entire final. Final exam subscale retests must be passed but will not affect the overall final examination score.

After completing all work, students must have a final average of 74.5% to pass the course.

#### **Determination of Course Grade/Detailed Grading Formula:**

Quizzes	25%	A = 90-100%
Homework	25%	B = 80-89%
Midterm	25%	C = 75-79%
Final Exam:	25%	D = <74%

#### Lab Grades:

A separate laboratory grade is not issued for EMSP 1205. However, your active participation is important. Students must verify proficiency in all required skills and the ability to integrate assessment and management skills during scenario testing. During laboratory sessions, proficiency will be verified on a pass/fail basis.

Students who do not demonstrate proficiency on an initial attempt will be provided with remediation and given <u>two additional opportunities</u> to demonstrate proficiency. Students who do not demonstrate proficiency after two attempts will receive an F and will not be eligible to continue in the program. Any student who retests a competency they have failed twice must do so with the program director and or medical director.

Students are expected to behave professionally and appropriately care for the equipment assigned during lab.

#### **Participation/Professionalism (Affective):**

The affective evaluation measures the student's attitude, behavior, professional attributes, motivation, and values. You will not receive a separate grade; however, you will be evaluated on the below items. While these will not count towards your grade, it is to prepare you for subsequent courses where these will be part of your grade.

The student will demonstrate proper appearance and personal hygiene in class, lab, and clinical settings.

- 1. In the clinical setting, the student must demonstrate integrity.
  - a. The student must demonstrate honesty and trustworthiness.
  - b. The student must maintain confidentiality.
  - c. The student must accurately complete documentation.
- 2. While in the clinical setting, the student must demonstrate empathy.

- a. The student will respond appropriately to the emotional needs of the patients/family members and the health care team.
- b. The student will demonstrate respect for others.
- c. The student will demonstrate a calm, compassionate, and helpful demeanor.
- 3. While in the lab setting, the student will demonstrate self-confidence.
  - a. The student will demonstrate the ability to trust personal judgment.
  - b. The student will demonstrate an awareness of strengths and limitations.
  - c. The student will exercise good personal judgment
- 4. While in the class setting, the student must demonstrate self-motivation.
  - a. The student will take the initiative to complete assignments.
  - b. The student will seek out learning experiences
  - c. The student will take the initiative to improve and/or correct behavior
  - d. The student will take on/follow through on tasks with minimal supervision.
  - e. The student will show enthusiasm for learning and improvement.
  - f. The student will strive for excellence in all aspects of patient care and professional activities.
  - g. The student will accept constructive feedback positively.
  - a. The student will wear neat, clean, well-maintained clothing and/or uniform.
  - b. The student will demonstrate good personal hygiene and grooming.
  - c. The student will wear proper uniform and identification.
- 5. While in the class setting, the student will demonstrate adequate communication skills.
  - a. The student will speak clearly, write legibly, and listen actively.
  - b. The student will adjust communication strategies as needed.
- 6. While in the class setting, the student will demonstrate effective time management.
  - a. The student will demonstrate consistent punctuality.
  - b. The student will complete tasks and assignments on time.
- 7. While in the class setting, the student will demonstrate teamwork and diplomacy.
  - a. The student will place the success of the team above self-interest.
  - b. The student will help and support other team members.
  - c. The student will show respect for all team members.
  - d. The student will remain flexible and open to change.
  - e. The student will communicate effectively with others to resolve problems.

	Affective Domain	Exceeds Expectations (A)	Mets Expectations (B)	Minimally Met Expectations (C)	Minimum Expectation Not Met (D)
1.	Quality of cognitive components				
2.	Course of action in behaviors				
3.	Articulation of feelings, values,				

	Ethics, and moral obligations		
4.	Congruency with		
	professional		
	ethics and values		
	demonstration		

Attendance Policy: Your attendance and active class participation are an integral component of your educational experience and that of your classmates. Because of this, it is critical that you attend all classes and labs. All lecture classes, labs, and clinical rotations require mandatory attendance. Class/Lab attendance is checked daily.

A student can miss no more than six hours of class or lab time combined. As the program manual outlines, these must be excused absences, and the program director must approve unexcused absences. The student must make up any hours beyond the six allowed to be missed. If they cannot make up hours, the instructor or program director can assign additional assignments based on the content covered during the missed time to be completed outside of class time. Additional absences will result in a review of the student's enrollment status, and they may be dropped from the course.

Late Work, Make-Up, and Extra-Credit Policy: Students may submit late work without penalty, at the instructor's discretion, when they have a valid excuse and contact the instructor in writing prior to the due date of the assignment or exam.

A missed or late assignment/homework or exam **without a valid excuse** may still be submitted but will receive a deduction of 5% per day late from the overall assignment score.

#### **Skills Lab Time Missed**

When **any** skills time is missed, the student will do the following to allow continuation in the program. This will not serve as "make-up" time—time missed is time missed.

- 2 hours missed (one day) = 1 hour of skills make-up with a COM adjunct instructor; additional work may be assigned at the instructor or program director's discretion
- The completion date of the above requirements is at the discretion of the Lead instructor, but it MUST be before the clinical start date.
- Students will start clinical rotations once the requirements are completed.

**Communicating with your instructor:** ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means.

Academic Dishonesty: Academic dishonesty will not be tolerated within the College of the Mainland EMS Program. Disciplinary action will include, but is not limited to, recording a "0"

for the assignment. Dismissal is likely in incidents of cheating or falsification of clinical documents. *NOTICE: Falsification of any program document is grounds for immediate dismissal and may result in a report of all personnel involved under Texas Administrative Code RULE §157.3* 

**Student Concerns:** If you have any questions or concerns about any aspect of this course, please contact the instructor using the contact information provided. If you continue to have questions after discussing your concern with your instructor, you may email the program director.

#### **Course Disruption:**

Due to circumstances beyond our control, for example, a pandemic, hurricane, or flooding, classes and labs could be converted from face-to-face to remote learning or disrupted, resulting in an Incomplete course that was disrupted or possibly delayed graduation. In that event, when courses can resume, the days and times to make up the content may be different from those originally designated. All efforts will be made to provide adequate notice of any changes. Students must attend those adjusted days/times to complete the curriculum requirements.

# **Institutional Policies and Guidelines**

**Grade Appeal Process:** Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook <u>https://www.com.edu/student-services/docs/Student\_Handbook\_2024-</u> <u>2025\_v2.pdf</u>. An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.

Academic Success & Support Services: College of the Mainland is committed to providing students with the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

ADA Statement: Any student with a documented disability needing academic accommodations is requested to contact: Kimberly Lachney, Student Accessibility Services Coordinator Phone: 409-933-8919 Email: AccessibilityServices@com.edu Location: COM Doyle Family Administration Building, Student Success Center

**Textbook Purchasing Statement:** A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

**Withdrawal Policy:** Students may withdraw from this course for any reason prior to the last eligible day for a "W" grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1<sup>st</sup> 8-week session is October 2. The last date to

withdraw from the 16-week session is November15. The last date to withdraw for the 2<sup>nd</sup> 8-week session is November 26.

**FN Grading:** The FN grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The FN grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the FN grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an FN grade.

**Early Alert Program:** The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program, you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

### **Resources to Help with Stress:**

If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <u>https://www.com.edu/community-resource-center/</u>. College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at <u>deanofstudents@com.edu</u> or <u>communityresources@com.edu</u>.

#### Nondiscrimination Statement:

The College District prohibits discrimination, including harassment, against any individual on the basis of race, color, religion, national origin, age, veteran status, disability, sex, sexual orientation, gender (including gender identity and gender expression), or any other basis prohibited by law. Retaliation against anyone involved in the complaint process is a violation of College District policy.
