

**RNSG-1343-101CL Complex Concepts of Adult Health  
Spring 2024, 16 Weeks  
Monday 9am – 11am Lecture  
12pm - 2pm Lab - STEAM 120**

**\*\*\*Syllabus & Course calendar are subject to change without prior notice\*\*\***

**Instructor Information:**

**Course Facilitator:** Genevieve Onyirioha DNP, RN, CMSRN

Office: STEAM 225-5

Office number: (409) 933-8279

Email: [gonyirioha@com.edu](mailto:gonyirioha@com.edu)

**Faculty:** Karen Bell PNP, MSN, RN

Office: STEAM 225-17

Office number (409) 933-8716

Email: [kbell22@com.edu](mailto:kbell22@com.edu)

**Faculty:** Rachel Fano MSN, APRN, FNP-C

Office: STEAM 225-11

Office number: (409) 933-8459

Email: [rboaz2@com.edu](mailto:rboaz2@com.edu)

**Student/Faculty meeting hours and location** (subject to change due to clinical rotations, email Faculty to make an appointment) **Mondays 3pm – 4pm (office hours)**

**Recommended Textbooks:**

Mosby Nursing Drug Guide (current edition in library as an eBook) All previously purchased books that were required.

**Course Description:**

Integration of previous knowledge and skills related to common adult health needs into the continued development of the professional nurse as a provider of patient-centered care, patient safety advocate, member of health care team, and member of the profession in the care of adult patients and families with complex medical-surgical health care needs associated with body systems. Emphasis on complex knowledge, judgments, skills, and professional values within a legal/ethical framework. Prerequisite: See Catalog. (Credit 3: Lecture 2, Lab 2) (16-week course, 64 contact hours)

**WECM End-of-Course Outcomes:**

Integrate the roles of the professional nurse in the provision of care of adult patients and families; utilize critical thinking skills and a systematic problem-solving process in providing care for adult patients and families with complex health care needs.

**Course requirements:** (including description of any special projects or assignments)

1. **Unit exams (4):** Assess knowledge and application of incremental course content. Timed unit exams will use 50 multiple choices, multiple answer, and alternative style test questions as indicated to follow NGN NCLEX-RN testing format. If a student receives a grade below 75% on any exam, he/she should schedule a counseling appointment with the instructor to complete remediation.
2. **Comprehensive final exam (1):** Assesses overall knowledge and application of complete course content. The timed exam will use multiple choice, multiple answer, and alternative style test questions as indicated to follow NGN NCLEX-RN testing format. If a student receives a grade below 75% on any exam, he/she should schedule a counseling appointment with the department remediation counselor.

3. **Pharmacology Lessons (Sherpath):** Assesses knowledge and application of selected pharmacologic content integrated within the program. Students will complete lessons as assigned, each due at midnight on the assigned deadline. The lessons are multi-media, mixing quizzes and videos and other materials over a single drug class. Students will complete two a week until the pharmacology topics are exhausted for this semester. No make for any assignment missed.
1. **Professionalism:** Reinforces lecture content through a series of activities that will include, but not be limited to (1) Notebook documentation of disease topics, (2) Sherpath pharmacology lessons, (3) case studies, (4) anatomage table participation, (5) EAQs and (6) other group or individual activities during designated lab time as deemed necessary by instructor. Students will receive professionalism points each day that will result in 10% of their final grade. Students will receive one point each class day for the following ten priorities for the professional nurse:
  - a. Attendance – Student is present for class (if student is absent, they lose all ten points for that day). If a student is asked to leave the classroom for disruptive behavior, they will lose all ten points for the rest of the day. Students may receive other sanctions for attendance/tardiness per college and department guidelines.
  - b. Timeliness – student is in class and ready exactly at class start time. Students may receive other sanctions for attendance/tardiness per college and department guidelines.
  - c. Participation and Engagement – students participate in class and team activities in a meaningful and engaged way.
  - d. Preparedness – students have prepared themselves for the day’s classroom activities through reading assignments and pre-class assignments.
  - e. Professional Dress & demeanor – Student is wearing attire as prescribed in the student handbook with a visible student badge, presenting themselves in a professional manner throughout the classroom period.
  - f. Objectives Application – students will apply the objectives of this class to all classwork and assignments.
  - g. Professional communication – student communicates in a professional manner consistent with the classroom activity.
  - h. Teamwork – student participates in teams in a collaborative and professional manner.
  - i. Focus & Attention – student focuses on classroom and team activities throughout the classroom time. Students browsing internet or any phone activity will result in a loss of this point.
  - j. Courteousness & Respect – Student will be courteous and respectful of each faculty, staff, and student member throughout the classroom period.
  - k. Student is eligible for ten points per classroom/lab/testing day for a maximum of 310 points for the semester.
4. **Group project** - Grading will be based on the following: your group communication skills; audio and visual presentation; actual evidence-based content which includes the etiology and pathology, clinical manifestations, potential complications, diagnostic studies, labs & screening tools, medications- (Patient Teaching, Nursing Implications) interprofessional care, and nursing management and teaching points; resources used for presentation; and collaboration within group. The presentation will be compiled in APA format in a professional format. If a student is absent on the presentation day, the student will lose 50% of the project grade.  
Content and PPP will be uploaded in D2L under “Group Presentation” tab. See Rubric.
5. **EAQs** - Assesses knowledge and application of content integrated within the course. Students will complete quizzes as assigned in the syllabus. No make for any assignment missed. The quizzes are multiple choice, multiple answer, and alternative-style questions.

**Determination of Course Grade/Detailed Grading Formula:**

**Grading Scale**

A = 90 – 100%

B = 80 – 89.99%

C = 75 – 79.99%\*

D = 60 – 74.99%

F = <60%

\*A minimum final grade of “C” is required to pass this course.

**Grade Calculation**

All assignments, including pass/fail, must be submitted to pass the course. *The exam average must be at least 75% before non-examination assignment grades are calculated into the final course grade.* See Grade Determination & Calculation in the Nursing Student Handbook.

Assignment	%
Unit Exam 1*	12.5
Unit Exam 2*	12.5
Unit Exam 3*	12.5
Unit Exam 4*	12.5
Final Comprehensive Exam*	10
<b>Exam Total*</b>	<b>60</b>
Group Project EBP Presentation**	10
EAQs **	10
Sherpath Pharmacology Lessons**	10
Professionalism**	10
	<b>40</b>
<b>Total</b>	<b>100</b>
* ≥ 75% weighted exam average required to pass the course	
** Weighted assignments calculated only after 75% exam average met. Student must participate in all assignment 100% to earn credit	

**Methods of Instruction**

Case studies

Lecture

Group discussions

Quizzes  
 Concept maps  
 Role-play and demonstration Audio-visual instructional aids Discussion boards  
 Practice questions Patient care plans Sherpath  
 pharmacology  
 Teach back methods including flipped classroom.

**Course Objectives/ Student Learning Outcomes Upon complete of this course, the student will:**

<b>Student Learner Outcome</b>	<b>Maps to Core Objective</b>	<b>Assessed via this Assignment</b>
1. Examine the pathophysiology and clinical management of adult patients with complex health needs.	Synthesize knowledge from the humanities and the psychosocial, biological, and nursing sciences.	Unit exams and Final exam Specialty topics, pathophysiology score, and Nursing concepts, clinical judgment/clinical decision-critical thinking score
2. Apply the nursing process in the care of adult patients with complex health needs and their families in primary, secondary, and tertiary settings to achieve, improve, or maintain an optimal level of wellness.	Apply the nursing process as a provider of patient-centered care in primary, secondary, and tertiary settings to promote health by assisting patients in achieving, improving, or maintaining an optimum level of wellness.	Unit exams and Final exam Nursing Process topics, including assessment, Analysis, interventions, and evaluation scores
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs.	No assigned objective	Unit exams and Final exams
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs.	No assigned objective	Unit exams and Final exams Client needs: physiological integrity score. Fundamentals: medication administration.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs and their families.	Practice beginning leadership skills include effective delegation, collaboration with the patient, family, and members of the health care	Unit exams and Final exams, QSEN topics, Patient centered care, dimensions of patient care

	team; coordination of safe, effective, caring, evidence-based, and therapeutic patient-centered care; and integration of knowledge from the humanities, nutrition, pharmacology, and the psychosocial, biological, and nursing sciences.	Teamwork and collaboration, Members of the team, Teamwork and Collaboration, and System/Teams functions topics.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.	No assigned objective	Unit exams and Final exams
6. Apply principles of patient care management in the care of adult patients with complex health needs.	No assigned objective	Unit exams and Final exams
7. Apply principles of patient safety in the care of adult patients with complex healthcare needs and their families.	No assigned objective	Unit exams and Final exams
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs.	No assigned objective	Unit exams and Final exams
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs and their families.	No assigned objective	Unit exams and Final exams
11. Discuss ethical/legal issues related to the care of adult patients with complex health needs and their families.	No assigned objective	Unit exams and Final exams

12. Examine health care and financial resources available to assist culturally diverse adult patients with complex health needs and their families	No assigned objective	Unit exams and Final exams
--	-----------------------	----------------------------

**Syllabus Assignment Submission Statement:** It is the student’s responsibility to confirm your submission. When submitting an assignment in D2L, particularly ones that include file attachments, you should take the time to verify your submission. You should receive a confirmation message after you submit your assignment. You should confirm your submission manually.

It is the student’s responsibility to submit all required documents to D2L to view before and after each submission to ensure that all files are attached. You will only be graded on the assignment (s) that is submitted to the D2L. There are no exceptions.

**Classroom Conduct Policy/Student Conduct**

Classroom Conduct Policy: College of the Mainland requires that students enrolled at COM be familiar with the Standards of Student Conduct, which can be found in the on-line Student Handbook. Students should always act in a professional manner. Disruptive students will be held accountable according to college policy. Any violations of the Code of Conduct will result in a referral to the Office for student Conduct and may result in dismissal from this class according to the Standards of Student Conduct found in the online COM Student Handbook.

Nursing students are expected to demonstrate courteous professional character as defined in BON Rule 213.27 ([http://bon.texas.gov/rr\\_current/213-27.asp](http://bon.texas.gov/rr_current/213-27.asp)). See Behavior/Conduct in the Nursing Student Handbook.

**Success Tips for Students**

1. Schedule time to study based on the difficulty of the content. Use this table as a guide:

Course Difficulty	Study Hours Per Week Per Hour in Class
High Difficulty Course	3 hours
Medium Difficulty Course	2 hours
Low Difficulty Course	1 hour

[http://www.usu.edu/arc/StudySmart/pdf/estimating\\_study\\_hours.pdf](http://www.usu.edu/arc/StudySmart/pdf/estimating_study_hours.pdf)

2. Read assignments before class or clinical. Here are some strategies for getting the most out of your college textbooks:
  - 4 Steps to Reading a Textbook: <http://www.studyright.net/blog/4-steps-to-reading-a-textbook-quickly-and-effectively/>
  - Active Reading Strategies: <http://www.princeton.edu/mcgraw/library/for-students/remember-reading/>
  - The Reading Cycle: Plan-Do-Review <http://www2.swccd.edu/~asc/lrnglinks/txttdg.html>
  - How to Read Your Textbooks More Efficiently College Info Geek (video) <https://www.youtube.com/watch?v=tgVjmFSx7rg>
  - 5 Active Reading Strategies for Textbook Assignments College Info Geek (video) [5 Active Reading Strategies for Textbook Assignments - College Info Geek](#)

**ANA Scope and Standards of Practice**

Students are expected to adhere to established ANA Scope and Standards of Practice (2015). (See Student Handbook and Clinical Evaluation Tool for detailed explanation of standards.)

### **Notice to Students Regarding Licensing**

*Effective September 1, 2017, HB 1508 amends the Texas Occupations Code Section 53 that requires education providers to notify potential or enrolled students that a criminal history may make them ineligible for an occupational license upon program completion. The following website provides links to information about the licensing process and requirements: [https://www.bon.texas.gov/licensure\\_eligibility.asp](https://www.bon.texas.gov/licensure_eligibility.asp).*

*Should you wish to request a review of the impact of criminal history on your potential Registered Nurse License prior to or during your quest for a degree, you can visit this link and request a “Criminal History Evaluation”:* [https://www.bon.texas.gov/licensure\\_endorsement.asp](https://www.bon.texas.gov/licensure_endorsement.asp). *This information is being provided to all persons who apply or enroll in the program, with notice of the requirements as described above, regardless of whether or not the person has been convicted of a criminal offense. Additionally, HB 1508 authorizes licensing agencies to require reimbursements when a student fails to receive the required notice.*

### **Student Handbooks**

Students are expected to adhere to all policies outlined in the College and Nursing Student Handbooks.

### **Syllabus Revisions**

Faculty reserves the right to make changes to the syllabus as deemed necessary.

### **The Tutoring Center**

The Tutoring Center provides free tutoring services to students, staff and faculty seeking assistance for writing, reading and oral presentations for academic and non-academic assignments/projects. Located in the Technical Vocational Building, Room 1306, the center provides face-to-face and online tutoring sessions in a welcoming environment. Appointments can be made in person, or on the center scheduler at [com.mywconline.com](http://com.mywconline.com), or by clicking the SRWC icon on the COM website.

### **Late Work, Make-Up, and Extra-Credit Policy:**

All course assignments are expected to be completed and submitted on the specified due date. See Late work, Make-Up, and Extra Credit Policy in the Nursing Student Handbook.

**Attendance Policy:**

See Attendance Policy in the Nursing Student Handbook.

**Tardiness**

See Attendance Policy in the Nursing Student Handbook.

**Communicating with your instructor:** ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means. (Faculty may add additional statement requiring monitoring and communication expectations via D2L or other LMS)

**Academic Dishonesty:**

Any incidence of academic dishonesty will be dealt with in accordance with college policy and the Student Handbook. Academic dishonesty, such as cheating on exams, is an extremely serious offense. See Behavior/Conduct policy in the Nursing Student Handbook.

**Plagiarism**

Plagiarism is using someone else's words or ideas and claiming them as your own. Plagiarism is a very serious offense. Plagiarism includes paraphrasing someone else's words without giving proper citation, copying directly from a website, and pasting it into your paper, using someone else's words without quotation marks. An assignment containing any plagiarized material will be referred to the Office of Student Conduct for appropriate discipline action. Also see the Behavior/Conduct policy in the Nursing Student Handbook. Avoiding Plagiarism: <http://www.plagiarism.org/>

**Student Concerns:** If you have any questions or concerns about any aspect of this course, please contact me using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact Director of Nursing, Dr. Debra Bauer DNP, at [(409) 933-8908/ [dbauer3@com.edu](mailto:dbauer3@com.edu)]. Please see the Student Concerns Policy in the Nursing Student Handbook for further instructions.

---

**Resources to Help with Stress:**

If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <https://www.com.edu/community-resource-center/>. College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at [deanofstudents@com.edu](mailto:deanofstudents@com.edu) or [communityresources@com.edu](mailto:communityresources@com.edu).

---

**Course outline:**

---

**Unit 1: Cancer**

**Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to cancer.
2. Apply the nursing process in the care of adult patients related to cancer and their families in primary, secondary, and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to cancer.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to cancer.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to cancer health needs and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to cancer.
8. Apply principles of patient safety in the care of adult patients with complex health needs related to cancer and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to cancer.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to cancer and their families.
11. Discuss ethical/legal issues related to the care of adult patients with cancer and their families.
12. Examine health care and financial resources available to assist culturally diverse adult patients with cancer.

**Learning Content:**

- I. Biology of Cancer
- II. Benign Versus Malignant Neoplasms
- III. Classification of Cancer

- IV. Prevention and Early Detection of Cancer
- V. Treatment Goals
- VI. Personalized Cancer Medicine
- VII. Surgical Therapy
- VIII. Chemotherapy
- IX. Radiation Therapy
- X. Nursing Management: Chemotherapy and Radiation Therapy
  - A. Problems Caused by Chemotherapy and Radiation Therapy
- XI. Late Effects of Radiation and Chemotherapy
- XII. Immunotherapy and Targeted Therapy
- XIII. Nursing Management: Immunotherapy and Target Therapy
- XIV. Hormone Therapy
- XV. Hematopoietic Growth Factors
- XVI. Hematopoietic Stem Cell Transplantation
- XVII. Gene Therapy
- XVIII. Nutritional Problems
- XIX. Infection
- XX. Oncologic Emergencies
- XXI. Cancer Pain
- XXII. Coping with Cancer and Treatment
- XXIII. Cancer Survivorship

**Learning Activities:**

- Read: Harding, et al. 12<sup>th</sup> ed. (2023): Chapter 16 (all)
- EAQ #1 over chapter 16
- In class participation activities

## **Unit 2: Disruptive Factors of the Hematologic System**

### **Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions in the hematologic system.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions in the hematologic system and their families in primary, secondary, and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions in the hematologic system.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions in the hematologic system.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions in the hematologic system and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions in the hematologic system.
8. Apply principles of patient safety in the care of adult patients with complex health needs related to disruptions in the hematologic system and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions in the hematologic system.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions in the hematologic system and their families.

### **Learning Content**

- I. Structures and Functions of Hematologic System
  - A. Bone Marrow
  - B. Blood
  - C. Normal Iron Metabolism
  - D. Normal Clotting Mechanisms

- E. Spleen
- F. Lymph System
- G. Gerontologic Considerations: Effects of Aging on Hematologic System
- II. Assessment of Hematologic System A. Assessment Abnormalities
- III. Diagnostic Studies of Hematologic System
  - A. Laboratory Studies
  - B. Biopsies
  - C. Molecular Cytogenetics and Gene Analysis
- IV. Anemia
  - A. Nursing and Interprofessional Management: Anemia
  - B. Anemia of Chronic Disease
  - C. Aplastic Anemia
- V. Anemia Caused by Decreased Erythrocyte Production
  - A. Thalassemia
  - B. Pernicious anemia (Vit B12)
  - C. Folic acid deficiency anemia
- VI. Anemia Caused by Blood Loss
  - A. Acute Blood Loss
  - B. Chronic blood loss
- VII. Other Red Blood Cell Disorders
  - A. Hemochromatosis
  - B. Polycythemia
- VIII. Problems of Hemostasis
  - A. Thrombocytopenia
  - B. Nursing Management: Thrombocytopenia
  - C. Neutropenia
  - D. Myelodysplastic Syndrome
  - E. Leukemia
  - F. Nursing Management: Leukemia
- IX. Multiple Myeloma
- X. Disorders of the Spleen XI. Blood Component Therapy
  - A. Administration Procedure
  - B. Common Blood Products
  - C. Blood Transfusion Reactions
  - D. Auto Transfusion

**Learning Activities:**

- Read: Harding, et al. (2023): Chapter 33 and 34.

## **Resources**

- Elsevier. Clinical Skills: Essential Collection: Initiating a Transfusion, Monitoring for Adverse Reactions to a Transfusion, and Preparing a Transfusion

## **Unit 3: Disruptive Factors of the Respiratory System**

### **Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions in the respiratory system.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions in the respiratory system and their families in primary, secondary, and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions in the respiratory system.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions in the respiratory system.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions in the respiratory system and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions in the respiratory system.
8. Apply principles of patient safety in the care of adult patients with complex healthcare needs related to disruptions in the respiratory system and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions in the respiratory system.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions in the respiratory system and their families.

### **Learning Content:**

- I. Problems of Nose and Paranasal Sinuses
  - A. Deviated Septum
  - B. Nasal Fracture
  - C. Rhinoplasty
  - D. Nursing Management: Nasal Surgery
  - E. Epistaxis

- F. Allergic Rhinitis
- G. Sinusitis
- H. Obstruction of Nose and Sinuses
- II. Problems of Trachea
  - A. Tracheostomy
  - B. Nursing Management: Tracheostomy
    1. Acute Care
    2. Chronic Care
    3. Swallowing Dysfunction
    4. Speech with a Tracheostomy Tube
    5. Decannulation
  - C. Head and Neck Cancer
  - D. Nursing Management: Head and Neck Cancer
- III. Lower Respiratory Problems
  - A. Lung Cancer
  - B. Nursing Management: Lung Cancer
  - C. Other Types of Lung Tumors
- IV. Interstitial Lung Diseases
  - A. Idiopathic Pulmonary Fibrosis
  - B. Sarcoidosis
- V. Obstructive Pulmonary Disease
  - A. Bronchiectasis
  - B. Interprofessional and Nursing Management: Bronchiectasis

**Learning Activities:**

- Read: Harding, et al. Chapter 27, 28, 29, 30, and 31

**Resources:**

- Elsevier. Clinical Skills: Essential Collection: Providing Tracheostomy Care

## **Unit 4: Disruptive Factors of the Gastrointestinal System**

### **Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex needs related to disruptions in the gastrointestinal system.
2. Apply the nursing process in the care of adult patients with complex needs related to disruptions in the gastrointestinal system and their families in primary, secondary, and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex needs related to disruptions in the gastrointestinal system.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex needs related to disruptions in the gastrointestinal system.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex needs related to disruptions in the gastrointestinal system and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex needs related to disruptions in the gastrointestinal system.
8. Apply principles of patient safety in the care of adult patients with complex health needs related to disruptions in the gastrointestinal system and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions in the gastrointestinal system.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex needs related to disruptions in the gastrointestinal system.

### **Learning Content:**

- I. Diagnostic Studies of GI System - Review
- II. Laboratory Studies – Review
- III. Oral Cancer
- IV. Esophageal & Stomach Cancer
  - A. Etiology and Pathophysiology
  - B. Clinical Manifestations and Complications

- C. Diagnostic Studies
- D. Interprofessional Management
- V. Nursing Management: Esophageal & Stomach Cancer
- VI. Inflammatory Disorders
  - A. Peritonitis
  - B. Nursing Management: Peritonitis
  - C. Inflammatory Bowel Disease
    - 1. Ulcerative Colitis vs. Chron's Disease
  - D. Nursing Management: Inflammatory Bowel Disease
  - E. Intestinal Obstruction
  - F. Nursing Management: Intestinal Obstruction
  - G. Polyps of Large Intestine
  - H. Colorectal Cancer
  - I. Nursing Management: Colorectal Cancer
  - J. Bowel Resection and Ostomy Surgery
  - K. Nursing Management: Bowel Resection
    - 1. Preoperative Care
    - 2. Postoperative Care
    - 3. Colostomy Care
    - 4. Ileostomy Care
    - 5. Psychologic Adaptation to an Ostomy
    - 6. Sexual Function
- VII. Anorectal Problems
  - A. Anal Cancer

**Learning Activities:**

- a. Read: Harding et al. Chapter 20, 43, 46, and 47

**Resources:**

- b. Elsevier. Clinical Skills: Essential Collection: Pouching a Colostomy & Fecal Occult Blood Testing

## **Unit 5: Disruptive Factors of the Hepatic and Biliary Systems**

### **Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas and their families in primary, secondary and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas.
8. Apply principles of patient safety in the care of adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions of the liver, biliary tract, and pancreas and their families.

## **Learning Content:**

- I. Disorders of the Liver
  - A. Hepatitis
    1. Viral Hepatitis
      - a) Hepatitis A Virus
      - b) Hepatitis B Virus
      - c) Hepatitis C Virus
      - d) Hepatitis D Virus
      - e) Hepatitis E Virus
    2. Pathophysiology
    3. Clinical Manifestations and Complications
      - a) Acute Hepatitis
      - b) Acute Liver Failure
      - c) Chronic Hepatitis
    4. Diagnostic Studies
    5. Interprofessional Care
      - a) Drug Therapy
  - B. Management: Viral Hepatitis
  - C. Drug and Chemical- Induced Liver Disease
  - D. Autoimmune, Genetic, and Metabolic Liver Diseases
    1. Autoimmune Hepatitis
    2. Wilson's Disease
    3. Hemochromatosis
    4. Primary Biliary Cholangitis
    5. Primary Sclerosing Cholangitis
    6. Nonalcoholic Fatty Liver Disease and Nonalcoholic Steatohepatitis
  - E. Cirrhosis
  - F. Nursing Management: Cirrhosis
  - G. Acute Liver Failure
  - H. Liver Cancer
- II. Disorders of the Pancreatitis
  - A. Acute Pancreatitis
  - B. Chronic Pancreatitis
  - C. Pancreatic Cancer
- III. Disorders of the Biliary Tract
  - A. Cholelithiasis and Cholecystitis
  - B. Nursing Management: Gall Bladder Disease
  - C. Gallbladder Cancer

**Learning Activities:** • Read: Harding et al. (2023): Chapter 48

## Unit 6 Cardiac and Vascular

### Student Learning Outcomes

Upon complete of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems and their families in primary, secondary and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems.
8. Apply principles of patient safety in the care of adult patients with complex healthcare needs related to disruptions of the cardiovascular and vascular systems and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions of the cardiovascular and vascular systems and their families.

### Learning Content:

- I. Assessment: Cardiovascular System
  - A. Assessment Abnormalities
  - B. Electrocardiography
  - C. Interventional and Invasive Studies
    - 1) Cardiac Catheterization
    - 2) Intravascular Ultrasound
    - 3) Electrophysiology Study
- II. Rhythm Identification and Treatment
  - A. Conduction System

- B. Nervous Control of the Heart
- C. Electrocardiographic Monitoring
- D. Electrophysiologic Mechanisms of Dysrhythmias
- E. Evaluation of Dysrhythmias
- F. Overview of Cardiac Rhythms
  - 1 Normal Cardiac Rhythms
- G. Types of Dysrhythmias
  - 1) Sinus Bradycardia
  - 2) Sinus Tachycardia
- III. Inflammatory Heart Disorders
  - 1) Infective Endocarditis
  - 2) Myocarditis
- IV. Valvular Heart Disease
  - 1) Mitral Valve Stenosis
  - 2) Mitral Valve Regurgitation
  - 3) Mitral Valve Prolapse
  - 4) Aortic Valve Stenosis
  - 5) Aortic Valve Regurgitation
  - 6) Tricuspid Valve Stenosis
  - 7) Pulmonic Valve Stenosis
- V. Cardiomyopathy

**Learning Activities:**

- a. Read: Harding et al. (2023): Chapter 35, 39, and 40.

## **Unit 7: Disruptive Factors of the Renal and Urinary Systems**

### **Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions in the renal and urinary systems.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions in the renal and urinary systems and their families in primary, secondary and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions in the renal and urinary systems.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions in the renal and urinary systems.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions in the renal and urinary systems and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions in the renal and urinary systems.
8. Apply principles of patient safety in the care of adult patients with complex healthcare needs related to disruptions in the renal and urinary systems and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions in the renal and urinary systems.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions in the renal and urinary systems and their families.

### **Learning Content**

- I. Obstructive Uropathies
  - A. Urinary Tract Calculi
    - i. Etiology and Pathophysiology
    - ii. Types of Urinary Stones
    - iii. Clinical Manifestations
    - iv. Diagnostic Studies

- v. Interprofessional Care
  - 1. Endourologic Procedures
  - 2. Lithotripsy
  - 3. Surgical Therapy
  - 4. Nutritional Therapy
- B. Nursing Management: Urinary Tract Calculi
- C. Strictures
- D. Renal Trauma
- II. Renal Vascular Problems
  - A. Nephrosclerosis
  - B. Renal Artery Stenosis
  - C. Renal Vein Thrombosis
- III. Urinary Tract Tumors
  - A. Kidney Cancer
  - B. Bladder Cancer
  - C. Nursing and Interprofessional Management: Bladder Cancer
- IV. Surgery of the Urinary Tract
  - A. Renal and Ureteral Surgery
  - B. Urinary Diversion
  - C. Nursing Management: Urinary Diversion

**Learning Activities:**

Read: Harding, et al. (2023): Chapter 49 and 50

**Resources:**

- Elsevier. Clinical Skills: Essential Collection:
  - Caring for a Suprapubic Catheter.
  - Irrigating a Urinary Catheter; and Pouching a Urostomy

## **Unit 8: Disruptive Factors of the Endocrine System**

### **Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions in the endocrine system.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions in the endocrine system and their families in primary, secondary and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions in the endocrine.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions in the endocrine system.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions in the endocrine system and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions in the endocrine system.
8. Apply principles of patient safety in the care of adult patients with complex healthcare needs related to disruptions in the endocrine system and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions in the endocrine system.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions in the endocrine system.

### **Learning Content**

- I. Structures and Functions of Endocrine System
  - A. Glands
  - B. Hormones
  - C. Hypothalamus
  - D. Pituitary
  - E. Pineal Gland

- F. Thyroid Gland
- G. Parathyroid Glands
- H. Adrenal Glands
- I. Pancreas
- J. Gerontologic Considerations: Effects of Aging on Endocrine System
- II. Assessment of Endocrine System
  - A. Subjective Data
  - B. Objective Data
  - C. Assessment Abnormalities
- III. Diagnostic Studies of Endocrine System
  - A. Serology and Urine Studies
  - B. Radiologic Studies
- IV. Disorders of Anterior Pituitary Gland
  - A. Acromegaly
  - B. Excesses of other Tropic Hormones
  - C. Hypofunction of Pituitary Gland
  - D. Pituitary Surgery
  - E. Nursing Management: Pituitary Surgery
- V. Syndrome of inappropriate antidiuretic hormone
- VI. Disorders of Thyroid Gland
  - A. Goiter
  - B. Thyroiditis
  - C. Hyperthyroidism
  - D. Nursing Management: Hyperthyroidism
  - E. Hypothyroidism
  - F. Nursing Management: Hypothyroidism
  - G. Thyroid Nodules and Cancer
- VII. Disorders of Parathyroid Glands
  - A. Hyperparathyroidism
  - B. Nursing Management: Hyperparathyroidism
  - C. Hypoparathyroidism
- VIII. Disorders of Adrenal Cortex
  - A. Cushing Syndrome
  - B. Nursing Management: Cushing Syndrome
  - C. Adrenocortical Insufficiency (Addison's Disease)
  - D. Corticosteroid Therapy
  - E. Hyperaldosteronism
- IX. Disorders of Adrenal Medulla
  - A. Pheochromocytoma

## **Learning Activities:**

- Read: Harding, et al. (2023): Chapters 48, 52, and 54

## **Unit 9: Disruptive Factors of the Nervous System and Chronic Neurologic Disorders**

### **Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system and their families in primary, secondary, and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system.
8. Apply principles of patient safety in the care of adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system and their families.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions in the nervous system and chronic neurologic system.

## Learning Content

- I. Structures and Functions of Nervous System
    - A. Cells of Nervous System
    - B. Nerve Regeneration
    - C. Nerve Impulse
    - D. Central Nervous System
    - E. Peripheral Nervous System
    - F. Cerebral Circulation
    - G. Protective Structures
    - H. Gerontologic Considerations: Effects of Aging on Nervous System
  - II. Assessment of Nervous System
    - A. Subjective Data
    - B. Objective Data
  - III. Diagnostic Studies of Nervous System
    - A. Radiologic Studies
    - B. Electrographic Studies
  - IV. Chronic Neurologic Disorders
    - A. Seizure Disorder
      - i. Etiology and Pathophysiology
      - ii. Genetic Link
      - iii. Clinical Manifestations
        - 1. Generalized-Onset Seizures
        - 2. Focal-Onset Seizures
        - 3. Psychogenic Nonepileptic Seizures
      - iv. Complications
    - v. Diagnostic Studies
    - vi. Interprofessional Care
    - vii. Gerontologic Considerations: Drug Therapy for Seizure Disorder
  - B. Nursing Management: Seizure Disorder
  - C. Restless Legs Syndrome
- V. Degenerative Neurologic Disorders
  - A. Multiple Sclerosis
  - B. Nursing Management: Multiple Sclerosis
  - C. Parkinson's Disease
  - D. Nursing Management: Parkinson's Disease
  - E. Myasthenia Gravis
  - F. Nursing Management: Myasthenia Gravis
  - G. Amyotrophic Lateral Sclerosis
  - H. Huntington's Disease
- VI. Peripheral Nerve Problems
  - A. Trigeminal Neuralgia
  - B. Nursing Management: Trigeminal Neuralgia

- C. Bell's Palsy
- D. Nursing Management: Bell's Palsy

**Learning Activities:**

- Read Harding, et al. (2023): Chapter 60, 61, and 63.

**Unit 10: Arthritis, Connective Tissue, and Musculoskeletal**

**Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems.
2. Apply the nursing process in the care of adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems their families in primary, secondary and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems.
8. Apply principles of patient safety in the care of adult patients with complex healthcare needs related to arthritis, connective tissue, and musculoskeletal systems.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems.
10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to arthritis, connective tissue, and musculoskeletal systems.

**Learning Content**

- I. Autoimmunity
  - A. Autoimmune Diseases
  - B. Apheresis
- II. Immunodeficiency Disorders
  - A. Primary Immunodeficiency Disorders
  - B. Secondary Immunodeficiency Disorders
- III. Arthritis
  - A. Osteoarthritis
  - B. Nursing Management: Osteoarthritis
  - C. Rheumatoid Arthritis
  - D. Nursing Management: Rheumatoid Arthritis
    - i. Drug Therapy
  - E. Gout
  - F. Interprofessional and Nursing Management: Gout
  - G. Septic Arthritis
- IV. Spondyloarthropathies
  - A. Ankylosing Spondylitis
  - B. Psoriatic Arthritis
  - C. Reactive Arthritis
  - D. Systemic Lupus Erythematosus
  - E. Nursing Management: Systemic Lupus Erythematosus
  - F. Scleroderma
  - G. Nursing Management: Scleroderma
  - H. Polymyositis and Dermatomyositis
  - I. Sjogren's Syndrome
  - J. Myofascial Pain Syndrome
  - K. Fibromyalgia
  - L. Systemic Exertion Intolerance Disease
- V. Amputation
- VI. Nursing Management: Amputation
- VII. Common Joint Surgical Procedures
  - A. Types of Joint Surgeries
    - i. Synovectomy
    - ii. Osteotomy
    - iii. Debridement
    - iv. Arthroplasty
    - v. Arthrodesis
    - vi. Complications of Joint Surgery
  - B. Nursing and Interprofessional Management: Joint Surgery
    - i. Preoperative Management
    - ii. Postoperative Management
- VIII. Osteomyelitis
- IX. Nursing Management: Osteomyelitis

- X. Bone Tumors
  - A. Benign Bone Tumors
    - i. Osteochondroma
  - B. Malignant Bone Tumors
    - i. Osteosarcoma
    - ii. Metastatic Bone Cancer
  - C. Nursing Management: Bone Cancer XI. Healing Process
- XII. Nursing and Interprofessional Management: Wound Healing

**Learning Activities:**

- Read: Harding, et al. (2023): Chapter

**Unit 11: Disruptive Factors of the Breast and Female and Male Reproductive Systems**

**Unit Student Learning Outcomes**

Upon completion of this unit, the student will:

1. Examine the pathophysiology and clinical management of adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems.
2. Apply the nursing process in the care of adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems and their families in primary, secondary, and tertiary settings to achieve, improve, or maintain an optimal level of wellness.
3. Utilize the principles of critical thinking, problem solving and clinical judgment in the performance of evidence based, advanced nursing skills while caring for adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems.
4. Examine pharmacokinetics, pharmacodynamics, therapeutic actions, side/adverse effects, contraindications, drug and dietary interactions, precautions, and routes of administration of relevant medications used in treatment of adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems.
5. Examine the roles of the associate degree nurse in caring for adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems and their families.
6. Utilize effective communication with culturally and spiritually diverse adult patients, their families, and members of the health care team.
7. Apply principles of patient care management in the care of adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems.
8. Apply principles of patient safety in the care of adult patients with complex healthcare needs related to disruptions in the breast and female and male

- reproductive systems.
9. Discuss appropriate principles of teaching and learning for culturally and spiritually diverse adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems.
  10. Utilize clinical data and current literature as a basis for decision making in the care of adult patients with complex health needs related to disruptions in the breast and female and male reproductive systems.

### **Learning Content**

- I. Assessment of Breast Disorders
- II. Benign Breast Disorders
  - A. Mastalgia
  - B. Breast Infections
  - C. Fibrocystic Changes
  - D. Fibroadenoma
  - E. Nipple Discharge
  - F. Atypical Hyperplasia
  - G. Intraductal Papilloma
  - H. Ductal Ectasia
  - I. I. Male Gynecomastia
- III. Breast Cancer
  - A. Etiology and Risk Factors
  - B. Genetic Link
  - C. Pathophysiology
  - D. Types of Breast Cancer
  - E. Clinical Manifestations
  - F. Complications
  - G. Diagnostic Studies
  - H. Interprofessional Care
    - i. Staging
    - ii. Surgical Therapy
    - iii. External Radiation Therapy
    - iv. Brachytherapy
    - v. Drug Therapy' vi. Culturally Competent Care
- IV. Nursing Management: Breast Cancer
- V. Mammoplasty
  - A. Breast Reconstruction
  - B. Breast Augmentation
  - C. Breast Reduction
- VI. Nursing Management: Breast Augmentation and Reduction VII. Infertility
- VIII. Problems Related to Menstruation
  - A. Premenstrual Syndrome

- B. Nursing Management: Premenstrual Syndrome
  - C. Dysmenorrhea
  - D. Perimenopause and Postmenopausal
  - E. Nursing Management: Perimenopause and Postmenopausal
  - F. Infections of Lower Genital Tract
  - G. Nursing Management: Infections of Lower Genital Tract
  - H. Chronic Pelvic Pain
  - I. Endometriosis
- IX. Benign Tumors of the Female Reproductive System
- A. Leiomyomas
  - B. Ovarian Cysts
  - C. Cervical Polyps
- X. Cancers of the Female Reproductive System
- A. Cervical Cancer
  - B. Endometrial Cancer
  - C. Ovarian Cancer
  - D. Vaginal Cancer
  - E. Vulvar Cancer
  - F. Nursing and Interprofessional Management: Cancers of Female Reproductive System
- XI. Pelvic Organ Prolapse
- A. Uterine Prolapse
  - B. Cystocele and Rectocele
  - C. Nursing and Interprofessional Management: Pelvic Organ Prolapse
  - D. Fistula
- XII. Prostate Cancer
- XIII. Nursing Management: Prostate Cancer
- XIV. Problems of the Penis
- A. Cancer of Penis
- XV. Problems of Scrotum and Testes
- A. Testicular Cancer

**Learning Activities:**

- Read Harding, et al. (2023): Chapter 55, 56, 58, and 59.

---

**Institutional Policies and Guidelines**

**Grade Appeal Process:** Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook [https://www.com.edu/student-services/docs/Student\\_Handbook\\_2023-2024\\_v2.pdf](https://www.com.edu/student-services/docs/Student_Handbook_2023-2024_v2.pdf). *An appeal will not be considered because of general*

*dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.*

**Academic Success & Support Services:** College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

**ADA Statement:** Any student with a documented disability needing academic accommodations is requested to contact Kimberly Lachney at 409-933-8919 or [klachney@com.edu](mailto:klachney@com.edu). The Office of Services for Students with Disabilities is located in the Student Success Center.

**Textbook Purchasing Statement:** A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

**Withdrawal Policy:** Students may withdraw from this course for any reason prior to the last eligible day for a "W" grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1<sup>st</sup> 8-week session is February 28. The last date to withdraw from the 16-week session is April 22. The last date to withdraw for the 2<sup>nd</sup> 8-week session is May 1. The last date to withdraw for spring mini session is May 29.

**FN Grading:** The FN grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The FN grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the FN grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an FN grade.

**Early Alert Program:** The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program, you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

#### **Resources to Help with Stress:**

If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <https://www.com.edu/community-resource-center/>. College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at [deanofstudents@com.edu](mailto:deanofstudents@com.edu) or [communityresources@com.edu](mailto:communityresources@com.edu).

**COVID-19 Statement:** All students, faculty, and staff are expected to familiarize themselves with materials and information contained on the College of the Mainland's Coronavirus Information site at [www.com.edu/coronavirus](http://www.com.edu/coronavirus). In compliance with Governor Abbott's May 18 Executive Order, face coverings/masks will no longer be required on COM campus. Protocols and college signage are being updated. We will no longer enforce any COM protocol that requires face covering. We continue to encourage all members of the COM community to distance, when possible, use hygiene measures, and get vaccinated to protect against COVID-19. Please visit [com.edu/coronavirus](http://com.edu/coronavirus) for future updates.
