

# Math 1324.101CL Mathematics for Business & Social Sciences Fall 2023

STEAM Building, Room 119 MW 9:30 - 10:50pm; F 10:00am - 10:50am

Instructor Information: Theophilus, Boye, tboye@com.edu, 409-933-8758

**Student hours: MW**: 8:30-9:30am; **TTh**: 3:30 – 6:00pm; **F**: 9:00-10:00am

location: STEAM 325-3

**Required Textbook/Materials:** Minimally, you are required to purchase the access code for MyLab Math to access the eText for the textbook and all course assignments. A hard copy of the textbook is recommended, but not required.

**ISBN:** 9780134767611

Title: Finite Mathematics with Applications in the Management, Natural, and Social Sciences

Author: Lial, Hungerford, Holcomb, and Mullins

Edition: 12 Copyright: 2019 Publisher: Pearson

Course Description: The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value.

#### **Course requirements:**

- **Homework:** Homework assignments will be given each week for every section covered in the course. Homework assignments will count as 10% of your final grade.
- Quizzes: Four quizzes will be given. Cumulatively, the quizzes will count as 10% of your final grade.
- **Unit Exams:** Four exams will be given, and you will be provided with a review to prepare for each exam. Each test will count as 16% of your grade.
- **Final Exam:** The comprehensive final exam will be given at the end of the course during Week 16. The final exam will count as 16% of your grade and will replace your lowest exam grade if it is higher.

## Required Technology:

A TI-84 Plus graphing calculator is required for this course. A TI-89 or higher or a TI-Nspire are not permitted. Internet capability is also required to gain access to course materials and online assignments via MyMathLab software.

# Determination of Course Grade/Detailed Grading Formula: *Grading Formula:*

Final Average = .64(Exam Average) +.16(Final Exam) +.10(Homework) +.10(Quizzes)

#### **Grading Scale:**

The course grade will be determined using the following scale:

Grade A: Final Average [89.5, 100] Grade B: Final Average [79.5, 89.5) Grade C: Final Average [69.5, 79.5) Grade D: Final Average [59.5, 69.5) Grade F: Final Average [0, 59.5)

Late Work, Make-Up, and Extra-Credit Policy: If you are unable to make a scheduled exam, you will be allowed to make up the exam outside of class provided you notify the instructor prior to the exam and have a legitimate reason for the absence. All makeup exams must be taken in the Testing Center by appointment. The late penalty for past due assignments is 20% of your grade. Extra credit assignments will not be available.

Attendance Policy: Attendance is required for all class meetings. When students are not actively participating (e.g., contributing to discussions and completing weekly online homework), the faculty member can initiate an instructor drop and, subsequently, the student will receive a **W** for the course.

Communicating with your instructor: ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means.

#### **Electronic Device Policies**

You may use your laptop or tablet for taking notes during lecture; however, that privilege will be lost if I find that you are using them for non-course-related reasons (e.g., news, social media, shopping).

All other electronic devices should be **silenced and hidden**. If there is an emergency and your phone must be on/visible, please inform me of this at the beginning of class

Table Mapping SLO's and Core Objectives

<b>Student Learner Outcomes</b>		Maps to Core Objective	Assessed via this assignment	
1.	Apply elementary functions, including linear, quadratic, polynomial, rational, logarithmic, and exponential functions to solving realworld problems	Critical Thinking Skills (CT)	Exam	
2.	Solve mathematics of finance problems, including the computation of interest, annuities, and amortization of loans.	Empirical and Quantitative Skills (EQS)	Exam	
3.	Apply basic matrix operations, including linear programming methods, to solve application problems.	Critical Thinking Skills (CT)	Exam	
4.	Demonstrate fundamental probability techniques and application of those techniques, including expected value, to solve problems.	Visual Communication Skills (CS)	Exam	
5.	Apply matrix skills and probability analyses to model applications to solve realworld problems.	Critical Thinking Skills (CT)	Quiz	

Academic Dishonesty: College of the Mainland is committed to a high standard of academic integrity. All students are responsible for honesty and independent effort. Incidents of academic and scholastic dishonesty (including cheating, plagiarism, and collusion) will be dealt with in a manner that is consistent will College Policy and the Student Conduct. Any student found to have been academically dishonest on an assignment, quiz, or exam will receive a zero for that assignment, quiz, or exam, and he or she will be referred to the Office of Student Conduct for further disciplinary action. Please read the section on Standards of Student Conduct and Discipline and Penalties in the online Student Handbook.

**Student Concerns:** If you have any questions or concerns about any aspect of this course, please contact me using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact Mr. Leslie Richardson, Math Department Chair, at (409) 933-8329 or at <a href="mailto:lirichardson@com.edu">lirichardson@com.edu</a>.

## **Course outline:**

Week	Dates	Topics	Sections	Due
		Functions	3.1	
1	Aug 28 – Sep 3	Graph of Functions	3.2	Sep 3
	September 4	College Closed - Labor Day		
	Sep 5 – 10	Linear Functions	3.3	Sep 10
2		Quadratic Functions	3.4	
		Polynomial Functions	3.5	
		Rational Functions	3.6	
	Sep 11 – 17	Quiz 1: Chapter 3		Sep 17
3		Exponential Functions	4.1	
		Application of Exponential Functions	4.2	
	Sep 18 – 24	Logarithmic Functions	4.3	Sep 24
4		Logarithmic and Exponential Equations	4.4	
-		Exam 1: Chapter 3, 4		
	Sep 25 – Oct 1	Simple Interest and Discount	5.1	
5		Compound Interest	5.2	Oct 1
3		Annuities, Future Value, and Sinking Funds	5.3	
6		Annuities, Present Value, and Amortization	5.4	
	Oct 2 – 8	Quiz 2, Chapter 5		Oct 8
		Systems of Two Linear Equations in Two Variables	6.1	
		Larger Systems of Linear Equations	6.2	
	Oct 9 - 15	Applications of Systems of Linear Equations	6.3	
7		Basic Matrix Operations	6.4	Oct 15
		Matrix Products and Inverses	6.5	
		Exam 2: Chapters 5, 6		
8	Oct 16 - 22			Oct 22
^	Oct 23 - 29	Graphing Linear Inequalities in Two Variables	7.1	Oct 29
9		Linear Programming: The Graphical Method	7.2	
10		Applications of Linear Programming	7.3	
	Oct 30 - Nov 5	The Simplex Method: Maximization	7.4	Nov 5
		Maximization Applications	7.5	

Week	Dates	Topics	Sections	Due	
	Nov 6 - 12	Quiz 3, Chapter 7		Nov 12	
11		Sets	8.1		
		Applications of Venn Diagrams	8.2	NOV 12	
		Introduction to Probability	8.3		
	Nov 13 - 19	Basic Concepts of Probability	8.4		
12		Conditional Probability and Independent	8.5	Nov 19	
		Events			
		Bayes' Formula	8.6	1	
	Nov 20 - 22	Exam 3: Chapter 7, 8		Nov 26	
13		Probability Distributions and Expected	9.1		
		Value			
	Nov 23 - 26	College Closed - Thanksgiving H			
		The Multiplication Principle,	9.2		
1.4	Nov 27 – Dec 3	Permutations and Combinations		D 2	
14		Applications of Counting	9.3	Dec 3	
		Binomial Probability	9.4		
		Quiz 4: Chapter 9			
	Dec 4 - 10	Frequency Distributions	10.1		
15		Measures of Center	10.2	Dec 10	
		Review for Exam 4			
		Exam 4 Chapter 9, 10			
	Dec 11 - 13	D . C E. 1E		-	
16		Review for Final Exam		Dec 13	
		Final Exam (comprehensive)		Dec 13	

<sup>\*</sup>W-Day is Nov 28 \*Class ends on Dec 13

<sup>\*</sup>Calendar is subject to change

## **Institutional Policies and Guidelines**

**Grade Appeal Process:** Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook <a href="https://www.com.edu/student-services/docs/Student\_Handbook\_2023-2024\_v2.pdf">https://www.com.edu/student-services/docs/Student\_Handbook\_2023-2024\_v2.pdf</a>. An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.

**Academic Success & Support Services:** College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

**ADA Statement:** Any student with a documented disability needing academic accommodations is requested to contact Kimberly Lachney at 409-933-8919 or <a href="klachney@com.edu">klachney@com.edu</a>. The Office of Services for Students with Disabilities is located in the Student Success Center.

**Textbook Purchasing Statement:** A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

**Withdrawal Policy:** Students may withdraw from this course for any reason prior to the last eligible day for a "W" grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1<sup>st</sup> 8-week session is October 11. The last date to withdraw from the 16-week session is November 28. The last date to withdraw for the 2<sup>nd</sup> 8-week session is December 7.

**FN Grading:** The FN grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The FN grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the FN grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an FN grade.

Early Alert Program: The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

## **Resources to Help with Stress:**

If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <a href="https://www.com.edu/community-resource-center/">https://www.com.edu/community-resource-center/</a>. College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at <a href="maintenance-deanoft-deanoft-deanoft-deanoft-deanoft-dailness-
