

COSC 1437-101HY

Spring 2022, 1/18/2022 – 5/13/2022

9:30 – 10:50 am Tuesday and Thursday

STEAM classroom on the first floor: S1.146

Instructor Information:

Name: Faith (Fay) Alexander

Email: Email: fbryan@com.edu

Phone: Office phone: 409-933-8334

Office Location: STEAM 225.55

Student / Office Hours and Location:

Monday, 9 – 9:30am, 11:00am – 12:30 pm, S225.55

Tuesday, 9 – 9:30am, 11:00am – 12:30 pm, S225.55

Wednesday, 9 – 9:30am, 11:00am – 12:30 pm, S225.55

Thursday, 9 – 9:30am, 11:00am – 12:30 pm, S225.55

Other days and times are by appointment with the instructor.

Required Textbook:

Starting Out with Java: From Control Structures through Data Structures, 4th Edition

by Tony Gaddis

Publisher: Pearson

Print ISBN: 9780134787961

eText ISBN: 9780134757223

Edition: 4th

Copyright year: 2019

Course Description:

This course focuses on the object-oriented programming paradigm, emphasizing the definition and use of classes along with fundamentals of object-oriented design. The course includes basic analysis of algorithms, searching and sorting techniques, and an introduction to software engineering processes. Students will apply techniques for testing and debugging software. This course is included in the Associate of Science Degree for Computer Science. It is also included in COM's Programming Certificate. COSC 1436 (or 1336), Programming I, is a prerequisite.

Course Requirements:

Programming Fundamentals II consists of lectures delivered in the classroom and hands-on exercises, worked by the students in the classroom. Each student has access to a COM personal computer in the classroom. These computers have the necessary software installed for working the hands-on exercises.

Students are also required to complete assignments outside of class. Success in programming depends on a lot of practice. Students should plan to work at least one hour outside of class for every hour spent in class. More time might be necessary. Even though learning programming takes time, it is fun and satisfying to get programs to work properly.

If you have a computer to use at home, you need to download the Java Development Kit (JDK) and the NetBeans Integrated Development Environment to your own computer in order to do the Java programming assignments. Both are free of charge. Instructions are in Blackboard and will be explained in class. If you do not have a computer to use at home, you may use the Innovations Lab in TVB 1324 and the COM library. Both have computers with the JDK and Netbeans already installed that you may use during the hours they are open.

Computer and Internet access: Regarding problems with your own computer and with Internet access, COM is not responsible for outages, and due dates will not be extended.

Determination of Course Grade/Detailed Grading Formula

The grade is determined by the completion of the programming assignments, tests, and Blackboard Discussion assignments as described in the grading formula below.

COURSE ITEM	% of Total Grade
Chapter review quizzes	10%
Chapter Assignments	20%
Tests	60%
Group Project	10%
Total	100%

Grading Scale:

Letter Grade	Percent
A	90% - 100%
B	80% - 89%
C	70% - 79%
D	60% - 69%
F	Below 60%

Late Work, Make-Up, and Extra-Credit Policy:

Homework must be completed on time. Due dates will not be extended and late work will not be accepted. There are no test re-takes. See the instructor if you have a documented emergency. There is no extra credit in this course.

Attendance Policy:

Attendance in all classroom sessions is required. All students are expected to attend all sessions in the classroom. There are no recordings of lectures and labs. If you cannot attend a class, you are still responsible for that content. Please contact a classmate to find out what you missed, and be sure to meet all deadlines, as they will not be extended.

Communicating with your instructor: ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means.

Student Learner Outcome	Maps to Core Objective	Assessed by Assignment(s)
1. Identify and explain a programming development lifecycle, including planning, analysis, design, development, and maintenance.	Critical Thinking	Chapter 1 Assignment
2. Demonstrate a basic understanding of object-oriented programming by using structs and classes in software projects.	Critical Thinking	Chapter 6 Assignment from Programming Challenges
3. Use object-oriented programming techniques to develop executable programs that include elements such as inheritance and polymorphism	Empirical and Quantitative Skills	Chapter 10 Assignment from Programming Challenges
4. Document and format code in a consistent manner.	Communication (written)	Chapter 6 Assignment from Programming Challenges
5. Apply basic searching and sorting algorithms in software design.	Empirical and Quantitative Skills	Chapter 10 Assignment for searching and sorting
6. Apply single- and multi-dimensional arrays in software.	Critical Thinking	Chapter 7 Assignment from Programming Challenges
7. Use a symbolic debugger to find and fix runtime and logical errors in software.	Critical Thinking	Chapter 6 Assignment from Programming Challenges
8. Demonstrate a basic understanding of programming methodologies, including object-oriented, structured, and procedural programming.	Critical Thinking	Chapter 1 Review Questions Quiz
9. Describe the phases of program translation from source code to executable code.	Communication (written)	Chapter 1 Review Questions Quiz

Academic Dishonesty:

Any incident of academic policy will be dealt with in accordance with college policy and the Student Handbook. Academic dishonesty – such as cheating on exams is an extremely serious offense and will result in a grade of zero on that exam and the student will be referred to the Office of Student Conduct for the appropriate disciplinary action.

Student Concerns:

If you have any questions or concerns about any aspect of this course, please contact me using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact Mr. Leslie Richardson, Math and Computer Science Department Chair, at 409-933-8329, email lrichardson@com.edu.

Course Outline:

Week	Date	Topic
1	1/18 - 1/20	Chapter 1, Introduction to Computers and Java, NetBeans setup, Algorithm Workbench, Quiz (Review Questions page 21-22)
2	1/25 – 1/27	Chapter 2, Java Fundamentals, Programming Challenge , Quiz (Review Questions page 100 – 102)
3	2/1 – 2/3	Chapter 3 (Decision Structures), Programming Challenge, Quiz (Review Questions page 175 – 177)
4	2/8 – 2/10	Chapter 4, Programming Challenge, Quiz (Review Questions page 256-258)
5	2/15 – 2/17	Test on Chapters 1-4, in class on 2/15.
6	2/22 – 2/24	Chapter 5, Methods, Programming Challenge, Quiz (Review Questions page 306 – 308)
7	3/1 – 3/3	Chapter 6, A First Look at Classes
8	3/8 – 3/10	Chapter 6, Programming Challenge, Quiz (Review Questions page 389 – 391)
	SPRING BREAK	SPRING BREAK
9	3/22 – 3/24	Chapter 7, Arrays and ArrayList Class
10	3/29 – 3/30	Chapter 7, Arrays and ArrayList Class, Programming Challenge, Quiz (Review Questions page 481 – 486)
11	4/5 – 4/7	Chapter 8, A Second Look at Classes and Objects, Programming Challenge, Quiz (Review Questions page 547 – 549)
12	4/12 – 4/14	Test 2, Chapters 5-8 in the classroom on 4/14
13	4/19 – 4/21	Chapter 9, Text Processing and Wrapper Classes, Programming Challenge, Quiz (Review Questions page 601 – 603)
14	4/26 - 4/28	Chapter 10 Inheritance, Programming Challenge,
15	5/3 – 5/5	Chapter 10 Inheritance, Programming Challenge, Quiz (Review Questions pages 690 – 693)
16	5/10 – 5/12	Test on Chapters 9 and 10, in class on 5/10.

Institutional Policies and Guidelines

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook. https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf. *An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.* https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf

Academic Success & Support Services: College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

ADA Statement: Any student with a documented disability needing academic accommodations is requested to contact Holly Bankston at 409-933-8520 or hbankston@com.edu. The Office of Services for Students with Disabilities is located in the Student Success Center.

Counseling Statement: Any student needing counseling services is requested to please contact Holly Bankston in the student success center at 409-933-8520 or hbankston@com.edu. Counseling services are available on campus in the student center for free and students can also email counseling@com.edu to set up their appointment. Appointments are strongly encouraged; however, some concerns may be addressed on a walk-in basis.

Textbook Purchasing Statement: A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

Withdrawal Policy: Students may withdraw from this course for any reason prior to the last eligible day for a “W” grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1st 8-week session is March 2. The last date to withdraw from the 16-week session is April 25. The last date to withdraw for the 2nd 8-week session is May 4.

F_N Grading: The F_N grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The F_N grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the F_N grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an F_N grade.

Early Alert Program: The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

COVID-19 Statement: All students, faculty, and staff are expected to familiarize themselves with materials and information contained on the College of the Mainland’s Coronavirus Information site at www.com.edu/coronavirus. In compliance with Governor Abbott's May 18 Executive Order, face coverings/masks will no longer be required on COM campus. Protocols and college signage are being updated. We will no longer enforce any COM protocol that requires face coverings. We continue to encourage all members of the COM community to distance when possible, use hygiene measures, and get vaccinated to protect against COVID-19. Please visit com.edu/coronavirus for future updates.

Updates to this Syllabus:

The instructor reserves the right to update this syllabus. All substantive changes will be communicated to students as soon as possible, in the classroom and through Blackboard announcements.
