Required Textbook/Materials: *Invitation to the Lifespan 4th Edition*, by Kathleen S. Berger

Course Description: This course will provide an overview of human development, from conception to birth. We will explore how people change over time in small ways and large. We will learn about three major domains of human development (biosocial, cognitive, and psychosocial) at each life stage (infancy, toddlerhood, preschool, and school-age, adolescence, early adulthood, middle adulthood, and late adulthood). Finally, we will deal with the topic of death and how we cope with the end of life in many cultures.

Course requirements:

******SEMESTER PROJECT****** You will participate in a semester long project in which you will put the concepts that are discussed in class into practice.

You will write journal entries in the form of a diary or journal to tell a personal story of parenting a child. **Each of the journal questions must be answered and key words used correctly to obtain full credit.** Write your journals as if you are telling a story; be creative, make sure you are using the terms correctly, and elaborate on each question. Make sure you answer each question fully as some questions require more than one response.

Journals should be at least 2 pages, typed, double spaced using size 12 font with 1” margins. Journals will be turned in on Blackboard by 11:59pm on the dates given *as an attached word document or pdf*. Do not write in the space provided by blackboard.

Journals are worth 50 points each and will receive full credit if the following criteria are met:

- 15 points: terms are used correctly in **BOLD** print
- 15 points each question is **fully** answered and elaborated on.
- 10 points: at least **2 pages typed** using the correct font and format.
- 10 points: specific **details** are given, and journal is creative.

Chapter Reviews: There will be 16 Reviews throughout the semester to be turned on Blackboard They will be worth 25 points each and due by 11:59pm on the dates given in the class schedule.

In Class Assignments: Each chapter will include several in class assignments to be determined.

Final: The final exam information will be given the last week of class and due the last day of class.

Social Responsibility Presentation: (in class presentation)

Only choose one option. For either choice, product and presentation will determine your grade.

Choice 1: Think of a problem in society that concerns you (ex. texting while driving). Create a 3-slide power point. Slide one will be your ‘billboard’ that defines the problem and advertises your stance. What will make it stand out at people passing by? Why should others care about your concern? Slide 2 will be your researched suggestions to help solve the problem. Slide 3 will be your three references.

Choice 2: Think of an organization you want to bring awareness to. Slide 1 will be the billboard that explains the organization and why they need support. Make sure the name and what they do is clear. What will make it stand out to those passing by? Slide 2 will be details about organization – are they a non-profit/how much do they give back/statistics about them. Slide 3 will be your three references.

Institutional Policies and Guidelines

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student

handbook. <https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf. An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal. https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf
