

# ASTR-1404-002IN Solar System Fall 2023 Online

#### **Instructor Information:**

Andrew VandenHeuvel avandenheuvel@com.edu 616-724-7188

#### **Student hours and location:**

I work remotely from my home office in Michigan.

Student hour: Fridays from 10:00 AM to 11:00 AM in my Zoom Meeting Room.

**Required Textbook:** There is no required textbook. All readings are freely available in the course.

**Course Description:** This course provides an introductory account of the Earth, Moon, planets, Sun, and other members of our solar system, including theories of their origins. The history and evolution of modern astronomy will also be discussed. A laboratory component consisting of simulations, observations, and experiments is also part of the course. Prerequisite: TSI 351 Reading or IRW 0320 grade "C" or better.

**Course requirements:** Students will need access to a printer and camera to complete certain lab activities.

**Determination of Course Grade**: Each assessment is worth a specific number of points. Below is a table which lists each type of assessment, how many are included in the course, the total number of points represented, and the percent of the final score that can be attributed to each assessment type.

Practice Quiz (8)	40 points	9%
Quizzes (8)	120 points	28%
Labs (8)	80 points	18%
Midterm (1)	70 points	16%
Final (1)	100 points	24%

Grading Scale:

A	100 - 90%
В	89 - 80%
C	79 - 70%
D	69 - 60%
F	Below 60%

**Fail Lab = Fail Class Syllabus Statement:** The grade for this course consists of both a lecture and laboratory component. Students must earn a 70% or better in the laboratory component to successfully pass the course. Earning less than 70% in the laboratory component will result in an F for the course regardless of the lecture grade. Passing the laboratory component and failing the lecture component will not guarantee a passing grade for the course. Deviations from this policy will be at the sole discretion of the instructor.

Late Work, Make-Up, and Extra-Credit Policy: All assignments should be submitted by 11:59 pm on the date that they are assigned. Late work will be accepted with a 10% penalty for each week that it is late. There are no extra credit opportunities available in this course.

**Attendance Policy:** Attendance in this online course is based entirely on the completion of assignments. Simply logging in to the course or reviewing the course content does not constitute attendance. Please be sure you complete your assignments on or near the due date to avoid penalties for extended absences, up to and including being withdrawn from the course.

**Communicating with your instructor:** Email is the preferred method of communication for our course. Your professor will respond to all email inquiries within 24 hours, Monday - Friday, excluding holidays. ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means.

<b>Student Learner Outcome</b>	Maps to Core Objective	Assessed via this Assignment
1. Demonstrate knowledge of	Critical Thinking Skills	
our place in the universe	Students will demonstrate	Chapter quizzes
and how astronomy	creative thinking, innovation,

3.	Scientifically justify	Communication Skills	
	stances on modern	Develop, interpret, and	Life in the Universe Debate
	scientific controversies	express ideas through written	
	related to the solar system.	communication.	
4.	Demonstrate the ability to	Teamwork	
	work effectively with	Students will demonstrate the	Observing Project
	others to support and	ability to work effectively with	
	accomplish a shared goal	others to support and	
	while recognizing and	accomplish a shared goal,	
	respecting different	while recognizing and	
	viewpoints.	respecting different	
		viewpoints.	

**Academic Dishonesty:** Any incident of academic dishonesty will be dealt with in accordance with college policy and the Student Handbook. Academic dishonesty – such as cheating on exams is an extremely serious offense and will result in a grade of zero on that exam and the student will be referred to the Office of Student Conduct for the appropriate disciplinary action.

This online course is considered "open book." You may use any resources from the course as you complete the practice quizzes, chapter quizzes, tests, and final exam. You should not, however, consult any other person or website while completing an assessment in our course (i.e. "Googling" answers to quizzes, tests, or the final is considered cheating).

**Student Concerns:** If you have any questions or concerns about any aspect of this course, please contact me using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact Science and Engineering Department Chair, Prof. Abernathy at (409)933-8330 or sabernathy@com.edu.

## **Course outline:**

Chapter	Assignments	<b>Due Date</b>
Read Me First	- Syllabus Quiz	Thu, Aug 31

	- A little about yourself	
Chapter 1 The Night Sky	- Practice 1.1 - Lab 1 - Quiz 1	Tues, Sept 5
Chapter 2 Motions in the Sky	<ul><li>Practice 2.1</li><li>Discussion</li><li>Lab 2</li><li>Quiz 2</li></ul>	Mon, Sept 11
Chapter 3 Early Astronomers	<ul><li>Practice 3.1</li><li>Practice 3.2</li><li>Lab 3</li><li>Quiz 3</li></ul>	Mon, Sept 25
Chapter 4 The Renaissance	- Practice 4.1 - Lab 4 - Quiz 4	Mon, Oct 9
Midterm	- Midterm Exam	Mon, Oct 16
Chapter 5 Mercury, Venus, Earth	- Practice 5.1 - Lab 5 - Quiz 5	Mon, Oct 23
Chapter 6 Mars	<ul><li>Practice 6.1</li><li>Lab 6</li><li>Quiz 6</li></ul>	Mon, Nov 6
Chapter 7 Distant Worlds	- Practice 7.1 - Lab 7 - Quiz 7	Mon, Nov 20
Chapter 8 Life in the Universe	- Discussion - Lab 8 - Quiz 8	Mon, Dec 4
Final Exam	- Final Exam	Thurs, Dec 11

### **Institutional Policies and Guidelines**

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook <a href="https://www.com.edu/student-services/docs/Student\_Handbook\_2023-2024\_v2.pdf">https://www.com.edu/student-services/docs/Student\_Handbook\_2023-2024\_v2.pdf</a>. An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.

**Academic Success & Support Services:** College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

**ADA Statement:** Any student with a documented disability needing academic accommodations is requested to contact Kimberly Lachney at 409-933-8919 or klachney@com.edu. The Office of Services for Students with Disabilities is located in the Student Success Center.

**Textbook Purchasing Statement:** A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

**Withdrawal Policy:** Students may withdraw from this course for any reason prior to the last eligible day for a "W" grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1<sup>st</sup> 8-week session is October 11. The last date to withdraw from the 16-week session is November 28. The last date to withdraw for the 2<sup>nd</sup> 8-week session is December 7.

**FN Grading:** The FN grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The FN grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the FN grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an FN grade.

**Early Alert Program:** The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

Resources to Help with Stress: If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <a href="https://www.com.edu/community-resource-center/">https://www.com.edu/community-resource-center/</a>. College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at deanofstudents@com.edu or communityresources@com.edu.
