

**NURS 3351-001I1**  
**Research & Evidence-Based Nursing**  
**Spring 2025**  
**Online**

**Instructor Information:** Dr. Genevieve Onyirioha, DNP, RN, CMSRN

**Student hours and location:**

Tuesday – 9:00am – 2:00pm. [gonyirioha@com.edu](mailto:gonyirioha@com.edu), 409-933-8279  
STEAM 225-5

**Required Textbook/Materials:**

LoBiondo-Wood, G. & Haber, J. (2022) Nursing Research: Methods and Critical Appraisal for Evidence-Based Practice, 10th edition. St. Louis: Elsevier, Inc.

American Psychological Association. (2020). Publication Manual of the American Psychological Association, 7th edition. Washington, DC: APA

**Course Description:**

Scholarly exchange prepares the baccalaureate nurse to understand the language of research and the scientific process through evaluation of quantitative, qualitative, and mixed method research methodology as a foundation for evidence-based practice in the healthcare setting. This course will investigate research methods and findings and promote appraisal skills to support evidence-based, patient-centered care, quality improvement, and safety outcomes. (Credit 3: Lecture 3, Lab 0) (8-week course, 48 contact hours)

**Course requirements:**

- 1. Discussion board (7):** Assess knowledge and application of incremental course content. Discussion board topics will be from the weekly reading content. Students will post one significant post related to the course content and support post with cited references. Students will reply to two of their peer's post or instructors' questions/posts with cited references. If a student receives a grade below 70% on any discussion board rubric, the student should schedule a counseling appointment with the instructor to complete remediation. (See Discussion Board Rubric)
- 2. Research Activity/Critical Appraisal:** Assesses overall knowledge and application of complete course content. Case studies/Research activities/critical appraisal will meet QSEN/NLN competencies, including teamwork, collaboration and professional identity, evidence-based practice with spirit of inquiry, safety, and nursing judgement. Submit your work via blackboard drop box. If a student receives a grade below 70% on any case study/research activities, the student should schedule a counseling appointment with the department remediation counselor and/or course facilitator. (See Research Activities/Appraisal Rubric)

**3. Quizzes (6):** Assesses overall knowledge and application of complete course content. Students will complete quizzes assigned, each due at midnight on the assigned deadline. The student will have one attempt to complete each quiz which will be averaged for the quiz grade. Located in D2L under quiz tab.

**4. Term Paper:** The term paper written assignment is a term paper that is part of a larger research project across the program. (See Term Paper Rubric). Submit your paper via D2L drop box for Term paper.

**5. Reflection Paper:** The purpose is to provide the student with an opportunity to reflect on selected Essentials of Baccalaureate Education for Professional Nursing Practice and QSEN Competencies.

Also consider the following - What were your goals at the beginning of the semester?

Were you able to reach those goals or did they change?

What was at least one challenge you faced and how did you overcome it?

What did you gain from this class that you can use in your practice?

Moving forward, what is your plan for the next 8 weeks/semester?

The length of the reflection is to be no less than 300 words and no greater than 400 words excluding title page and reference pages. APA format is required with both a title page and reference page. (see the rubric).

**6. Weekly Participation/Professionalism:** Assesses ability to synthesize information when collaborating on a topic with peers. Students will discuss components of evidence-based research on a weekly discussion board. Students will be expected to synthesize content for the weekly discussion post and support their response with cited references. Students will be required to synthesize postings from two of their peers and instructors each week and contribute substantially to the post with new information either supporting the peers or instructors view or offering a different view with supporting references at least 2 days/wk., this is mandatory.

**Professionalism:** Students will receive professionalism points each day for attendance.

a. **Attendance** – Student is present in the class per institution attendance requirements.

b. **Timeliness** – student submits assignments on time.

c. **Participation and engagement** – students participate in class and team activities in a meaningful and engaged way 2ds/wk. Mandatory.

d. **Preparedness** – student completes all assignments and pre-class assignments.

e. **Professional demeanor** – Student communicates in a professional manner throughout the course period.

f. **Objectives Application** – students will apply the objectives of this class to all classwork and assignments.

g. **Teamwork** – student participates in teams in a collaborative and professional manner.

### **Determination of Course Grade/Detailed Grading Formula**

Case studies/ Research/Appraisal activities

Discussion Board

Assignments/Quizzes

Audio-visual instructional aids

Written Reports

**Grading Scale**

A = 90 -100.00

B = 80 -89.99

C = 70 -79.99

D = 60 -69.99

F = &lt; 60

**Grade Calculation**

Assignments	%
Weekly Discussion Board/Professionalism (7)	35%
Weekly Quiz (6) (located in D2L)	15%
Research Activity/Critical Appraisal	22%
Written Project: Term paper	23%
Reflection Paper	5%
Grade Total	100%
*A Grade Total of at least 70% is required to pass the course.	

**Late Work, Make-Up, and Extra-Credit Policy:**

All course assignments are expected to be completed and submitted on the specified due date. See Late Assignments Policy in the Nursing Student Handbook

**Attendance Policy:**

See the Attendance Policy in the Nursing Student Handbook.

**Communicating with your instructor:** ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means. (Faculty may add additional statement requiring monitoring and communication expectations via D2L or other LMS)

<b>Student Learner Outcome</b>	<b>Maps to Core Objective</b>	<b>Assessed via this Assignment</b>
Integrate knowledge, skills, and abilities gained from personal experiential learning, prerequisite, and co-requisite courses in the program of study.	Synthesize knowledge, skills, and values from the arts, sciences, and humanities as an exemplar of professional nursing and an advocate of social justice	Quiz, discussion board
Address the role of research in providing evidence-based delivery of safe patient-centered care.	Provide comprehensive patient-centered care utilizing an organized framework to make individual, community, and population-based decisions grounded in evidence-based practice.	Quiz, discussion board Research/Appraisal activities

Apply legal and ethical standards in evaluating and applying research to provide evidence-based practice.	Utilize data to monitor outcomes of care and improvement methods to continuously improve the quality and safety of nursing care to minimize risk of harm individually and across the healthcare system.	Case study, Quiz, discussion board Research/Appraisal activities
Compare and contrast quantitative, qualitative, mixed-methods research methodologies, and the contributions of each to evidence-based nursing practice.	Utilize data to monitor outcomes of care and improvement methods to continuously improve the quality and safety of nursing care to minimize risk of harm individually and across the healthcare system.	Case study, Quiz, discussion board Research/Appraisal activities
Appraise research and evidence-based practices as a means to support patient outcomes.	Utilize data to monitor outcomes of care and improvement methods to continuously improve the quality and safety of nursing care to minimize risk of harm individually and across the healthcare system.	Case study, Quiz, discussion board Research/Appraisal activities
Analyze protocols to evaluate patient care indicators and outcomes of evidence-based initiatives to support patient outcomes.	Utilize data to monitor outcomes of care and improvement methods to continuously improve the quality and safety of nursing care to minimize risk of harm individually and across the healthcare system.	Case study, Quiz, discussion board Research/Appraisal activities
Analyze future implications for nursing research as a foundation for evidence-based practice to enhance nursing as a profession.	Communicate and collaborate with the interdisciplinary team to lead and manage shared decision-making for optimal patient, family, population, and community outcomes.	Case study, Quiz, discussion board 8, Research/Appraisal activities

**Academic Dishonesty:**

Any incidence of academic dishonesty will be dealt with in accordance with college policy and the Student Handbook. Academic dishonesty, such as cheating on exams, is an extremely serious offense. See Behavior/Conduct policy in the Nursing Student Handbook.

**Student Concerns:**

If you have any questions or concerns about any aspect of this course, please contact the instructor/facilitator of the course using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact the Dean of Instruction Dr. Rebecca Montz at [rmontz@com.edu](mailto:rmontz@com.edu).

**Plagiarism**

Plagiarism is using someone else's words or ideas and claiming them as your own. Plagiarism is a very serious offense. Plagiarism includes paraphrasing someone else's words without giving proper citation, copying directly from a website and pasting it into your paper, using someone else's words without quotation marks. Any assignment containing plagiarized material will receive a grade of zero and the student will be referred to the Office of Student Conduct for appropriate disciplinary action. Also see the Behavior/Conduct policy in the Nursing Student Handbook.

Avoiding Plagiarism: <http://www.plagiarism.org/>

---

**Institutional Policies and Guidelines**

**Grade Appeal Process:** Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook [https://www.com.edu/student-services/docs/Student\\_Handbook\\_2024-2025\\_v2.pdf](https://www.com.edu/student-services/docs/Student_Handbook_2024-2025_v2.pdf). *An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.*

**Academic Success & Support Services:** College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

**ADA Statement:** Any student with a documented disability needing academic accommodations is requested to contact:

Kimberly Lachney, Student Accessibility Services Coordinator

Phone: 409-933-8919

Email: [AccessibilityServices@com.edu](mailto:AccessibilityServices@com.edu)

Location: COM Doyle Family Administration Building, Student Success Center

**Textbook Purchasing Statement:** A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

**Withdrawal Policy:** Students may withdraw from this course for any reason prior to the last eligible day for a “W” grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1<sup>st</sup> 8-week session is **2/26/2025**. The last date to withdraw from the 16-week session is 4/21/2025. The last date to withdraw for **the 2<sup>nd</sup> 8-week session is 4/30/2025**.

**FN Grading:** The FN grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The FN grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the FN grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an FN grade.

**Early Alert Program:** The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

**Resources to Help with Stress:**

If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <https://www.com.edu/community-resource-center/>. College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at [deanofstudents@com.edu](mailto:deanofstudents@com.edu) or [communityresources@com.edu](mailto:communityresources@com.edu).

**Nondiscrimination Statement:**

The College District prohibits discrimination, including harassment, against any individual on the basis of race, color, religion, national origin, age, veteran status, disability, sex, sexual orientation, gender (including gender identity and gender expression), or any other basis prohibited by law. Retaliation against anyone involved in the complaint process is a violation of College District policy.

**HB1508 Statement:** Notice to Students Regarding Licensing Effective September 1, 2017, HB 1508 amends the Texas Occupations Code Section 53 that requires education providers to notify potential or enrolled students that a criminal history may make them ineligible for an occupational license upon program completion. The following website provides links to information about the licensing process and requirements: [www.tdlr.texas.gov](http://www.tdlr.texas.gov)

## Course Content

### Unit 1: Integrating Research, Evidence-Based Practice, and Quality Improvement Processes

#### Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. State the significance of research, evidence-based practice, and quality improvement (QI).
2. Identify the role of the consumer of nursing research.
3. Define evidence-based practice.
4. Define QI.
5. Discuss evidence-based and QI decision making.
6. Explain the difference between quantitative and qualitative research.
7. Explain the difference between the types of systematic reviews.
8. Identify the importance of critical reading skills for critical appraisal of research.
9. Discuss the format and style of research reports/articles.
10. Discuss how to use an evidence hierarchy when critically appraising research studies.

#### Learning Content:

Nursing Research, Evidence-Based Practice, and Quality Improvement

II. Types of Research: Qualitative and Quantitative

III. Critical Reading Skills

IV. Strategies for Critiquing Research Studies

V. Overcoming Barriers: Useful Critiquing Strategies

VI. Evidence-based Practice and Research

VII. Research Articles: Format and Style

VIII. Systematic Reviews: Meta-analyses, Integrative Reviews, and Meta-Syntheses

IX. Clinical Guidelines

X. Quality Improvement

XI. Key Points

#### Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 1

### Unit 2: Research Questions, Hypotheses, and Clinical Questions

#### Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Describe how the research question and hypothesis relate to the other components of the research process.
2. Describe the process of identifying and refining a research question or hypothesis.
3. Discuss the appropriate use of research questions versus hypotheses in a research study.
4. Identify the criteria for determining the significance of a research question or hypothesis.

5. Discuss how the purpose, research question, and hypothesis suggest the level of evidence to be obtained from the findings of a research study.
6. Discuss the purpose of developing a clinical question.
7. Discuss the differences between a research question and a clinical question in relation to evidence-based practice.
8. Apply critiquing criteria to the evaluation of a research question and hypothesis in a research report.

Learning Content:

- I. Developing and Refining a Research Question: Study Perspective
- II. The Fully Developed Research Question
- III. Study Purpose, Aims, or Objectives
- IV. Developing the Research Hypothesis
- V. Relationship Between the Hypothesis and the Research Design
- VI. Developing and Refining a Clinical Question: A Consumer's Perspective
- VII. Appraisal for Evidence-Based Practice the Research Question and Hypothesis
- VIII. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 2

### **Unit 3: Gathering and Appraising the Literature**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Discuss the purpose of a literature review in a research study.
2. Discuss the purpose of reviewing the literature for an evidence-based and quality improvement (QI) project.
3. Differentiate the purposes of a literature review from the evidence-based practice and the research perspective.
4. Differentiate between primary and secondary sources.
5. Differentiate between systematic reviews/meta-analyses and pre-appraised synopses.
6. Discuss the purpose of reviewing the literature for developing evidence-based practice and QI projects.
7. Use the PICO format to guide a search of the literature.
8. Conduct an effective search of the literature.
9. Apply critical appraisal criteria for the evaluation of literature reviews in research studies.

Learning Content:

- I. Review of the Literature
- II. Searching for Evidence
- III. Types of Resources
- IV. Literature Review Format: What to Expect
- V. Appraisal for Evidence-Based Practice
- VI. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 3

#### **Unit 4: Theoretical Frameworks for Research**

##### Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Describe the relationship among theory, research, and practice.
2. Identify the purpose of conceptual and theoretical frameworks for nursing research.
3. Differentiate between conceptual and operational definitions.
4. Identify the different types of theories used in nursing research.
5. Describe how a theory or conceptual framework guides' research.
6. Explain the points of critical appraisal used to evaluate the appropriateness, cohesiveness, and consistency of a framework guiding research.

##### Learning Content:

I. Practice-Theory-Research Links

II. Overview of Theory

III. Types of Theories Used by Nurses

IV. How Theory is Used in Nursing Research

V. Application to Research and Evidence-Based Practice

VI. Key Points

##### Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 4

#### **Unit 5: Introduction to Qualitative Research**

##### Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Describe the components of a qualitative research report.
2. Describe the beliefs generally held by qualitative researchers.
3. Identify four ways qualitative findings can be used in evidence-based practice.

##### Learning Content:

I. What is Qualitative Research?

II. What Do Qualitative Researchers Believe?

III. Does the Methodology Fit with the Research Question Being Asked?

IV. Components of Qualitative Research Study

V. Discussion of the Results and Implications for Evidence-Based Practice

VI. Appraisal for Evidence-Based Practice Foundation of Qualitative Research

VII. Key Points

##### Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 5

#### **Unit 6: Qualitative Approaches to Research**

##### Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Identify the processes of phenomenological, grounded theory, ethnographic, and case study methods.
2. Recognize appropriate use of community-based participatory research (CBPR) methods.
3. Discuss significant issues that arise in conducting qualitative research in relation to such topics as ethics, criteria for judging scientific rigor, and combination of research methods.
4. Apply critical appraisal criteria to evaluate a report of qualitative research.

Learning Content:

- I. Qualitative Approach and Nursing Science
- II. Qualitative Research Methods
- III. Synthesizing Qualitative Evidence: Meta-Synthesis
- IV. Issues in Qualitative Research
- V. Appraisal for Evidence-Based Qualitative Research
- VI. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 6

## **Unit 7: Appraising Qualitative Research**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Understand the role of critical appraisal in research and evidence-based practice.
2. Identify the criteria for critiquing a qualitative research study.
3. Identify the stylistic considerations in a qualitative study.
4. Apply critical reading skills to the appraisal of qualitative research.
5. Evaluate the strengths and weaknesses of a qualitative study.
6. Describe applicability of the findings of a qualitative study.
7. Construct a written critique of a qualitative study.

Learning Content:

- I. Critical Appraisal and Qualitative Research Considerations
- II. Application of Qualitative Research Findings
- III. The Research Study
- IV. The Critique

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 7

## **Unit 8: Introduction to Quantitative Research**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Define research design.

2. Identify the purpose of a research design.
3. Define control and fidelity as it affects research design and the outcomes of a study.
4. Compare and contrast the elements that affect fidelity and control.
5. Begin to evaluate what degree of control should be exercised in a study.
6. Define internal validity.
7. Identify the threats to internal validity.
8. Define external validity.
9. Identify the conditions that affect external validity.
10. Identify the links between study design and evidence-based practice.
11. Evaluate research design using critiquing questions.

Learning Content:

- I. Research Design and Purpose
- II. Objectivity in the Research Question Conceptualization
- III. Accuracy
- IV. Control and Intervention Fidelity
- V. Quantitative Control and Flexibility
- VI. Internal and External Validity
- VII. Appraisal for Evidence-Based Practice Quantitative Research
- VIII. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 8

## **Unit 9: Experimental and Quasi-Experimental Designs**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Describe the purpose of experimental and quasi-experimental research.
2. Describe the characteristics of experimental and quasi-experimental designs.
3. Distinguish between experimental and quasi-experimental designs.
4. List the strengths and weaknesses of experimental and quasi-experimental designs.
5. Identify the types of experimental and quasi-experimental designs.
6. Identify potential internal and external validity issues associated with experimental and quasi-experimental designs.
7. Critically evaluate the findings of experimental and quasi-experimental studies.
8. Identify the contribution of experimental and quasi-experimental designs to evidence-based practice.

Learning Content:

- I. Research Process
- II. Experimental Design
- III. Quasi-Experimental Designs
- IV. Evidence-Based Practice
- V. Appraisal for Evidence-Based Practice Experimental and Quasi-Experimental Designs
- VI. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 9

### **Unit 10: Nonexperimental Designs**

#### Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Describe the purpose of nonexperimental designs.
2. Describe the characteristics of nonexperimental designs.
3. Define the differences between nonexperimental designs.
4. List the advantages and disadvantages of nonexperimental designs.
5. Identify the purpose and methods of methodological, secondary analysis, and mixed method designs.
6. Identify the critical appraisal criteria used to critique nonexperimental research designs.
7. Evaluate the strength and quality of evidence by nonexperimental designs.

#### Learning Content:

- I. Survey Studies
- II. Relationship and Difference Studies
- III. Prediction and Causality in Nonexperimental Research
- IV. Additional Types of Quantitative Methods
- V. Appraisal for Evidence-Based Practice Nonexperimental Designs
- VI. Key Points

#### Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 10

### **Unit 11: Systematic Reviews and Clinical Practice Guidelines**

#### Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Describe the types of research reviews.
2. Describe the components of a systematic review.
3. Differentiate between a systematic review, meta-analysis, and integrative review.
4. Describe the purpose of clinical guidelines.
5. Differentiate between an expert- and an evidence-based clinical guideline.
6. Critically appraise systematic reviews and clinical practice guidelines.

#### Learning Content:

- I. Systematic Review Types
- II. Systematic Review
- III. Meta-Analysis
- IV. Cochrane Collaboration
- V. Integrative Review
- VI. Reporting Guidelines: Systematic Reviews and Meta-Analysis
- VII. Tools for Evaluating Individual Studies
- VIII. Clinical Practice Guidelines

IX. Evaluating Clinical Practice Guidelines

X. Appraisal for Evidence-Based Practice Systematic Reviews and Clinical Guidelines

XI. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 11

## **Unit 12: Sampling**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Identify the purpose of sampling.
2. Define *population*, *sample*, and *sampling*.
3. Compare a population and a sample.
4. Discuss the importance of inclusion and exclusion criteria.
5. Define *nonprobability* and *probability sampling*.
6. Identify the types of nonprobability and probability sampling strategies.
7. Compare the advantages and disadvantages of nonprobability and probability sampling strategies.
8. Discuss the contribution of nonprobability and probability sampling strategies to strength of evidence provided by study findings.
9. Discuss the factors that influence sample size.
10. Discuss potential threats to internal and external validity as sources of sampling bias.
11. Use the critical appraisal criteria to evaluate the “Sample” section of a research report.

Learning Content:

I. Sampling Concepts

II. Types of Samples

III. Samples Size

IV. Appraisal for Evidence-Based Sampling

V. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 12

## **Unit 13: Legal and Ethical Issues**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Describe the historical background that led to the development of ethical guidelines for the use of human subjects in research.
2. Identify the essential elements of an informed consent form.
3. Evaluate the adequacy of an informed consent form.
4. Describe the institutional review board’s role in the research review process.
5. Identify populations of subjects who require special legal and ethical research considerations.

6. Describe the nurse's role as patient advocate in research situations.
7. Critique the ethical aspects of a research study.

Learning Content:

- I. Sampling Concepts
- II. Types of Samples
- III. Samples Size
- IV. Appraisal for Evidence-Based Sampling
- V. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 13

#### **Unit 14: Data Collection Methods**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Define the types of data collection methods used in research.
2. List the advantages and disadvantages of each data collection method.
3. Compare how specific data collection methods contribute to the strength of evidence in a study.
4. Identify potential sources of bias related to data collection.
5. Discuss the importance of intervention fidelity in data collection.
6. Critically evaluate the data collection methods used in published research studies.

Learning Content:

- I. Measuring Variables of Interest
- II. Data Collection Methods
- III. Construction of New Instruments
- IV. Appraisal for Evidence-Based Practice Data Collection Methods
- V. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 14

#### **Unit 15: Reliability and Validity**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Discuss how measurement errors can affect the outcomes of a study.
2. Discuss the purposes of reliability and validity.
3. Define *reliability*.
4. Discuss the concepts of stability, equivalence, and homogeneity as they relate to reliability.
5. Compare and contrast the estimates of reliability.
6. Define *validity*.
7. Compare and contrast content, criterion-related, and construct validity.
8. Identify the criteria for critiquing the reliability and validity of measurement tools.

9. Use the critical appraisal criteria to evaluate the reliability and validity of measurement tools.

10. Discuss how reliability and validity contribute to the strength and quality of evidence provided by the findings of a research study.

Learning Content:

I. Reliability, Validity, and Measurement Error

II. Validity

III. Reliability

IV. Classic Test Theory Versus Item Response Theory

V. How Validity and Reliability are Reported.

VI. Appraisal for Evidence-Based Practice Reliability and Validity

VII. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 15

**Unit 16: Data Analysis: Descriptive and Inferential Statistics**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Differentiate between descriptive and inferential statistics.
2. State the purposes of descriptive statistics.
3. Identify the levels of measurement in a study.
4. Describe a frequency distribution.
5. List measures of central tendency and their use.
6. List measures of variability and their use.
7. State the purpose of inferential statistics.
8. Explain the concept of probability as it applies to the analysis of sample data.
9. Distinguish between a type I and type II error and its effect on a study's outcome.
10. Distinguish between parametric and nonparametric tests.
11. List some commonly used statistical tests and their purposes.
12. Critically appraise the statistics used in published research studies.
13. Evaluate the strength and quality of the evidence provided by the findings of a research study and determine applicability to practice.

Learning Content:

I. Levels of Measurement

II. Descriptive Statistics

III. Inferential Statistics

IV. Appraisal for Evidence-Based Practice Descriptive and Inferential Statistics

V. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 16

**Unit 17: Understanding Research Findings**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Discuss the difference between the “Results” and the “Discussion” sections of a research study.
2. Determine if findings are objectively discussed.
3. Describe how tables and figures are used in a research report.
4. List the criteria of a meaningful table.
5. Identify the purpose and components of the “Discussion” section.
6. Discuss the importance of including generalizability and limitations of a study in the report.
7. Determine the purpose of including recommendations in the study report.
8. Discuss how the strength, quality, and consistency of evidence provided by the findings are related to a study’s results, limitations, generalizability, and applicability to practice.

Learning Content:

- I. Findings
- II. Appraisal for Evidence-Based Practice Research Findings
- III. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 17

### **Unit 18: Appraising Quantitative Research**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Identify the purpose of the critical appraisal process.
2. Describe the criteria for each step of the critical appraisal process.
3. Describe the strengths and weaknesses of a research report.
4. Assess the strength, quality, and consistency of evidence provided by a quantitative research report.
5. Discuss applicability of the findings of a research report for evidence-based nursing practice.
6. Conduct a critique of a research report.

Learning Content:

- I. Findings
- II. Appraisal for Evidence-Based Practice Research Findings
- III. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 18

### **Unit 19: Strategies and Tools for Developing an Evidence-Based Practice**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Identify the key elements of a focused clinical question.
2. Discuss the use of databases to search literature.
3. Screen a research article for relevance and validity.
4. Critically appraise study results and apply the findings to practice.
5. Make clinical decisions based on evidence from the literature combined with clinical expertise and patient preferences.

Learning Content:

- I. Evidence-based Strategy: #1: Asking a Focused Clinical Question
- II. Evidence-based Strategy #2: Searching the Literature
- III. Evidence-based Strategy #3: Screening Your Findings
- IV. Evidence-based Strategy #4: Appraise Each Article's Findings
- V. Evidence-based Strategy #5: Applying the Findings
- VI. Summary
- VII. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 19

## **Unit 20: Developing an Evidence-Based Practice**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Differentiate among conduct of nursing research, evidence-based practice, and translation science.
2. Describe the steps of evidence-based practice.
3. Describe strategies for implementing evidence-based practice changes.
4. Identify steps for evaluating an evidence-based change in practice.
5. Use research findings and other forms of evidence to improve the quality of care.

Learning Content:

- I. Overview of Evidence-based Practice
- II. Steps of Evidence-based Practice
- III. Future Directions
- IV. Key Points
- VII. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 20

## **Unit 21: Quality Improvement**

Unit Student Learning Outcomes:

Upon completion of this unit, the student will be expected to:

1. Discuss the characteristics of quality health care defined by the Institute of Medicine.
2. Compare the characteristics of the major quality improvement (QI) models used in health care.

3. Identify two databases used to report health care organizations' performance to promote consumer choice and guide clinical QI activities.
4. Describe the relationship between nursing-sensitive quality indicators and patient outcomes.
5. Describe the steps in the improvement process and determine appropriate QI tools to use in each phase of the improvement process.
6. List four themes for improvement to apply to the unit where you work.
7. Describe ways that nurses can lead QI projects in clinical settings.
8. Use the SQUIRE Guidelines to critique a journal article reporting the results of a QI project.

Learning Content:

I. Overview of Evidence-based Practice

II. Steps of Evidence-based Practice

III. Future Directions

IV. Key Points

Learning Activities:

Read: LoBiondo-Wood, G. & Haber, J. (2022) Chapter 21
