Course Description:

This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations. Students will study information from the entity's accounting system relevant to decisions made by internal managers, as distinguished from information relevant to users who are external to the company. The emphasis is on the identification and assignment of product costs, operational budgeting and planning, cost control, and management decision making. Topics include product costing methodologies, cost behavior, operational and capital budgeting, and performance evaluation.

Course requirements:

1. The student will correctly respond in writing to the total of 13 objectives, and quantitative - problem exams given throughout the semester. The exams will be taken in class or online without the use of books or class notes unless otherwise specified. The student's response will demonstrate his/her proficiency in the course material.

The quizzes will address **Core Objectives: Empirical and Quantitative Skills and Critical Thinking Skills.**

2. The student will complete 100% of the problem assignments from the Accounting text. These assignments are due at the beginning of the class on the date assigned. Bonus points are awarded for completing the homework.

3. Accounting Lab (ACLB 2010 & 2020):

The student will complete 8 to 12 problems and cases CengageNOWv2 software. The student will analyze the case facts given and design an algorithm (or complete a template) to produce the information necessary to satisfy the accounting application. These can be completed in the Business / Accounting lab in T-1324 or at home. The instructor will issue the weekly lab assignments to the class and grade the assignments. The directions to complete the lab assignments will be provided by the instructor (and grading will be done in accordance with the instructor's specifications). Lab assignments are 20% of your course grade.

NOTE: No passing grade can be awarded in the course, if the student fails to complete the minimum number of Lab assignments. You will not be allowed to take the exam on a chapter, if the related lab assignment for that chapter is not completed first. A grade of zero will be awarded on that missed exam.

The student may also use the lab at other times when the facilities are scheduled as open lab time.

Determination of Course Grade/Detailed Grading Formula:

1. The final grade will be based on the exams given during the semester and completion of the minimum number of Lab and homework assignments.

(a) Chapter Exams (100 points each): 60% of grade

(b) Lab assignments 20% of grade

(c) Homework assignments: 20% of grade

Grading Scale:

The following grade scale will be used:

Letter Grade	Final Average in Percent
A	= 90 - 100
B	= 80 - 89
C	= 70 - 79
D	= 60 - 69
F	= 59 - below

Late work, Make-Up Policy:

1. Generally, no make-up exams will be given. If an exam is not taken during the scheduled time period, the grade of zero will be recorded.
2. Any make-up exams may be allowed by the instructor **only under extenuating circumstances and at the specific request of the student.**

Attendance Policy:

Roll will be taken in each class period (only if this class is scheduled to be face to face) and 100% attendance is expected. If you are taking this class online, you are expected to log into Blackboard at least 4 times a week. Otherwise, as stated in the College catalog, it will be the responsibility of the students themselves to withdraw from the course prior to the W-Day December 2nd deadline if they elect to do so, in order to assure a grade of "W" rather than a grade of "F".

Institutional Policies and Guidelines

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook. <https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf.

An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal. https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf
