Required Textbook: No textbook will be required for this course. Books and magazines in an extensive ceramics/sculpture office library will be available as a resource during class and office hours. For this class you will keep a sketch book that gathers the written and verbal information given in class as well as your drawings and research to develop ideas for each for each assignment. Please use a 3 ringed binder for your sketchbook. This way you have the ability to organize your sketchbook more easily. Your sketchbook should be clearly organized and grouped by projects. If you submit a sketchbook in which the pages are loose and unorganized it will not be graded. **You should think of your sketchbook as a textbook you write for the course and needs to be complete to satisfy the 10% it counts towards your grade.**

Textbook Purchasing Statement: A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

Course Description:

A further study of ceramics processes through the investigation of materials and techniques building on what was introduced in Ceramics 1.
