**Course Description:** Survey of principles and practices of theater design and its elements. The fundamentals of art and their application to major areas of theatrical design. Creating stage setting through script, color, and architectural analysis. This will be achieved through practical application through rendering, model making, and technical drawing.

**Course requirements:** You will be required to complete four scene designs in this class, each of which includes specific design consideration to be specified below.

Each phase of a project's process will be discussed and critiqued in class – in fact will on most days *be* the class content. Your participation in these discussions is *very* important, and will be part of each project grade. In other words, **your attendance and participation is required at all class sessions**. Portions of each project are due prior to the completion date. You will find it easy to complete these projects *if* you keep up with the weekly schedule of project progress. At certain project phases you will be asked to give a formal presentation of your work.

**Note:** Since many of you are participating in departmental productions, a conscious effort has been made for preparation in both those productions and class assignments. It is more important to have the assignment completed on time rather than trying to play “catch-up” since the schedule is so process- orientated.

Part of this course is devoted to offering information and ideas about design theory. The main goal is to raise visual consciousness and to develop an understanding of the design process through study and practice. There is one exam, based on information from class discussions and the study notes. (which is required reading.) Also required are two one-page reports on live productions attended during the semester (hopefully one should be a professional production).

### **Determination of Course Grade/Detailed Grading Formula:**

Evaluation of individual class projects is based on a series of four criteria:

1. **COMPLETENESS** – Does the design include all the necessary parts, and does it cover the four physical/visual areas that all scene designers are obliged to pay attention to?
2. **QUALITY** – This means quality of design, synthesis of appropriate research, and general imaginativeness and good choices in aesthetic considerations. Did you use appropriate research? Is your design composition handsomely composed? Are the proportions pleasing? Does the design give a good indication of the world of the play? Quality also refers to the level of craftsmanship in the model, and attention to detail and expression of visual creativeness.
3. **PRACTICALITY** – How well does the design serve the dramatic needs of the play, from the standpoint of director and actors? Is there sufficient room provided for entrances? For acting areas? Are the traffic patterns reasonable? Is there a viable relationship between placement of acting areas and audience? Between the set and lighting? Between the set and Costumes? Does the set accommodate reasonably speedy set changes?
4. **SCALE/PROPORTION** – This refers to the accuracy of the applied scale. It also refers to the proportions of the design elements as they relate to the actors, to the theatre architecture, and to other design features. The use of proper scale is a good indication of how much care you took in building your model.

### **GRADING BREAKDOWN:**

- Each assignment grade is evaluated on three criteria: “application of course materials”, “quality of work”, and “completion of work.” Feel free to inquire about your grade standing at anytime.
- Late work will devalue your assignment grade by 25% if one class period late and an additional 25% for each additional class.
- Academic dishonesty will result in a course grade of 0.0.

**% BREAKDOWN OF FINAL GRADE:**

***Class Participation*** -10%

***Book Nook*** - 20%

**Late Work, Make-Up, and Extra-Credit Policy:**

Late work will only be accepted with and excused absence documentation. Make up work and extra credit will be at the discretion of the instructor.

**Attendance Policy:**

In recognition of the importance of regular attendance, the college does not allow any "cuts" on the part of the students, nor does it allow instructors to give "walks." An accurate record of each student's absence will be kept. Students are expected to attend class and to arrive on time. Absences will be recorded on the days of the lectures/discussions/labs, and any other days that the Instructor deems necessary. These absences will not directly affect the student's overall grade, but may influence individual assignments.

**Withdrawal Policy:** Students may withdraw

from this course for any reason prior to the last eligible day for a "W" grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are only permitted to withdraw six times during their college career by State law.

**ALL STUDENTS MUST ATTEND THE FINAL.** Failure to attend the final will result in an "F" for the class.

Excused absences will be given at the Instructors discretion, but only with some form of hardcopy documentation. It is best to discuss potential absences with your Instructor before it is taken.

**Tardiness Policy:** Tardies, however, will directly affect the student's overall grade. Arriving to class after roll has been called or a test has been given out is considered a tardy. After three tardies, the Instructor may drop the student from the class.

**Communicating with your instructor:** ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means.

## **Institutional Policies and Guidelines**

**Grade Appeal Process:** Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook [https://www.com.edu/student-services/docs/Student\\_Handbook\\_2023-2024\\_v2.pdf](https://www.com.edu/student-services/docs/Student_Handbook_2023-2024_v2.pdf). *An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor’s professional judgment of the quality of the student’s work and performance is also not an admissible basis for a grade appeal.*
