

BIOL-2402-222H3
Anatomy and Physiology II
Spring 2025
Thursday, Lab 6:00-8:50pm (STE-334)

Instructor Information: Alex Peniche, Ph.D., apenichetrujill@com.edu, 409-933-8244 (Jennifer McManus, Administrative Assistant IV)

Student hours and location:

Office Hours: Before class or by appointment

Location: STE-334

Required Textbook/Materials:

Textbook: Marieb, E.N. & Hoehn, K., 2019. *Human Anatomy and Physiology, 11th edition* (eText), Boston, MA; Pearson Education, Inc. Publisher bundled with MODIFIED Mastering A&P on-line component. ISBN13: 978-0-13-458099-9. This e-book and the Modified Mastering A&P are purchased at the time of registration. You will gain access to them in D2L Brightspace on first day of class.

Lab manual: Amerman, E., 2022. **Exploring Anatomy & Physiology in the Laboratory, 4th edition.** Englewood, Colorado, Morton Publishing Company (customized for College of the Mainland) ISBN-13: 9781640436206. You will have to buy this; it is **not** part of registration payments.

Course Description: Anatomy and Physiology II is the second part of a two-course sequence. It is a study of the structure and function of the human body including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

Course prerequisites: BIOL 2401 with a grade of "C" or better.

Lecture Exams

Counts for 75% of the final course grade. Five (5) exams (15% each) will be administered. Exams will consist of a combination of multiple choice, short answer, and essay questions. The material covered by each exam is listed on the syllabus. To prepare for an exam, students must read,

understand, and master all chapters to be examined. It is very important that students understand the terms, complete exercises and study guides at the end of each chapter. Some of them will be used as exam questions. No phones or other electronic or communication equipment are allowed during exams. Respondus lockdown web browser is required to take all Test online.

Laboratory and laboratory reports

Grade is earned from individual laboratory assignment using D2L Brightspace on dates indicated in the section “Course outline”. Laboratory assignments consist of a combination of identify, multiple choice, and short answer based on laboratory manual. The material covered by assignment is listed on the section “Course outline”. Failure to submit Laboratory assignment in D2L Brightspace will be scored as a zero (0) toward the laboratory grade average. There will be no make-ups for missed laboratories or laboratory reports.

Quizzes (bonus Points)

Here an opportunity for you to earn bonus points. Bonus points are not part of the course requirements so any bonus points earned will help your grade and any bonus points no taken will not affect your grade negatively.

No make-up opportunity will be allowed for Quizzes once the due date has passed unless you can provide documentation for an emergency that keeps them away from taking the quiz that is approved by me.

Presentations (bonus Points)

Here another opportunity for you to earn bonus points. Bonus points are not part of the course requirements so any bonus points earned will help your grade and any bonus points no taken will not affect your grade negatively. Presentation requires that students survey the scientific literature (peer reviewed journals) related to the “clinical applications” section from book chapters 1-15. Students should submit me via email the subject proposed for presentation. Presentation dates will be organized according to assignment arrival. The presentation should be planned for 15 min (~10 slides), plus 5 min dedicated for discussion. All presentations should be made on PowerPoint file format. Please do not use readymade presentation material available on the internet. Student should present his/her understanding of the subject, his concepts and perception of the scientific matter analyzed by the paper.

Determination of Course Grade/Detailed Grading Formula: All grades matters!! Keep track of your class grades as reflection of your knowledge, skills, or both, rather than effort. Evaluation will be based on the following and weighted as indicated:

Lecture: Counts for 75% of the final course grade. Five (5) exams (15% each) will be administered.

Laboratory: Counts for 25% of the final course grade.

The grade for this course consists of both a lecture and laboratory component. Students must earn a 70% or better in the laboratory component to successfully pass the course. Earning less than 70% in the laboratory component will result in an F for the course regardless of the lecture grade.

Passing the laboratory component and failing the lecture component will not guarantee a passing grade for the course. Deviations from this policy will be at the sole discretion of the instructor

Grading Scale:

A – A weight of the points earned for course assessments that equals 90% or more

B – A weight of the points earned for course assessments that equals between 80% and 89% inclusive

C – A weight of the points earned for course assessments that equals between 70% and 79% inclusive

D – A weight of the points earned for course assessments that equals between 60% and 69% inclusive

F – A weight of the points earned for course assessments that equals 59% or less, or for lab assessment that fails to meet either the lab science policy or the lab attendance policy.

FN – A weight of the points earned for course assessments that equals 59% or less due to poor participation.

I – An incomplete may be assigned at the discretion of the instructor in accordance with the college policy.

W – A withdrawal may be assigned in accordance with college policy.

Late Work, Make-Up, and Extra-Credit Policy:

Late work: Do not turn in any assignment late. Substantial number of points, up to 100%, may be deducted.

Extra credit: Extra credit assessments are dependent on your attendance. If a student has total attendance below 85%, he/she may not be eligible for extra credit points. Any completed and graded extra credit assignment by such student may not be applied in the final grade calculation.

Make-up: There will be make-up for in-class quiz missed due to a documented excused absence. There may be a maximum of one (1) make up, at the instructor's discretion, for in-class lecture exam missed due to an excused absence. If one must miss a lecture exam because of an emergency, he/she must contact the instructor before the start of the scheduled exam and provide documentation as legitimate proof of the absence! Arrangements may be made for him/her to take the exam at a time not later than 24 hours after the scheduled date. If you know in advance that you will be unable to attend an exam, you may take the exam earlier than scheduled.

Lab Science Policy: The grade for this course consists of both a lecture and laboratory component. Students must earn a 70% or better in the laboratory component to successfully pass the course. Earning less than 70% in the laboratory component will result in an F for the course regardless of the lecture grade. Passing the laboratory component and failing the lecture component will not guarantee a passing grade for the course. Deviations from this policy will be at the sole discretion of the instructor.

Attendance Policy: Students are expected to attend all laboratory practices. An accurate record of each student’s attendance is kept for the duration of the course. It is the student’s responsibility to follow up with classmates for assignments, announcements, material covered, etc. if he/she misses a session. If student decides stop attending class, missed activities (tests, and laboratory reports) will be scored with a zero (0). In other words, you will most likely fail the course if you stop attending class and you don’t withdraw yourself.

Communicating with your instructor: ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means. (Faculty may add additional statement requiring monitoring and communication expectations via D2L or other LMS)

Student Learner Outcome	Maps to Core Objective	Assessed via this Assignment
1. Use anatomical terminology to identify and describe locations of major organs of each system covered.		Diagram questions on Exams 1-5
2. Explain interrelationships among molecular, cellular, tissue, and organ functions in each system.		Questions on Exams 1-5
3. Describe the interdependency and interactions of the systems.		Group Case-Study Activities
4. Explain contributions of organs and systems to the maintenance of homeostasis.	Critical Thinking	Essay Questions on Lecture Exams 1,2 and 3
5. Identify causes and effects of homeostatic imbalances.	Communication Skills	Student presentations, Lab reports
6. Describe modern technology and tools used to study A&P		Lab reports
7. Apply appropriate safety and ethical standards.		Lab reports
8. Locate and identify anatomical structures.		Lab reports
9. Appropriately utilize laboratory equipment, such as microscopes, dissection tools, general lab ware, physiology data acquisition systems, and virtual simulations.		Lab reports
10. Work collaboratively to perform experiments.	Teamwork	Construct a Lung Experiment
11. Demonstrate the steps involved in the scientific method.		Exercise 25-1 The Model Kidney w/ added Hypothesis
12. Communicate results of scientific investigations, analyze data and formulate conclusions.		Exercise 19-2 Blood Typing and Exercise 19-3 Murder Mystery
13. Use critical thinking and scientific problem-solving skills, including, but not limited to, inferring, integrating, synthesizing, and summarizing, to make decisions, recommendations, and predictions.	Empirical & Quantitative Skills	Urinalysis Experiment within Laboratory Assignment

Academic Dishonesty: Academic dishonesty includes activities and behaviors such as cheating on tests, collusion, and plagiarism (the practice of taking someone else's work or ideas and passing them off as one's own). Disciplinary actions will be taken for students who exhibit disorderly conduct, cheat on exams, submit plagiarized work, or are involved in collusion (helping others cheat and/or plagiarize). The consequences for violating the academic integrity include one or more of a zero score for the test/assignment, “F” grade in the course, and withdrawal from the class. The student may also be referred to the Vice President of Student Success and Conduct for further disciplinary action including dismissal from the college.

Student Concerns: If you have any questions or concerns about any aspect of this course, please contact me using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact Sheena Abernathy, the Science Department Chair, at 409-933-8330 or sabernathy@com.edu.

Course outline: This is a tentative schedule of lecture and laboratory activities and may be subject to change as the course proceeds. Students will be notified in class and posted/uploaded in the D2L Brightspace. It is the student’s responsibility to check the D2L Brightspace for amendments or updates to the syllabus.

Week	Date	Learning Module Topics	Laboratory - Components	Due
1	1/16	Ch16: Endocrine System	Lab Safety, Ex. 16-1 Endocrine Glands; Ex. 16-2 Endocrine Organ Histology; Ex. 16-4 (Endocrine “Mystery Cases”)	1/23
2	1/23	Ch18: The Cardiovascular System: The Heart	Ex. 17-1 Anatomy of the Heart; Ex. 17-2 Cardiac Muscle Histology; Ex.	1/30
3	1/30	Ch19: The Cardiovascular System: Blood Vessels	19-1 Heart Auscultation; Ex. 19-5 ECG & Vernier EKG Handout Ex. 18-1 Major Arteries of the Body & Ex.18-2 Major Veins of the Body; Ex.19-3 Blood Pressure	2/6
	1/31-2/2	Exam 1 (Ch 16, 18, 19)	Online – Respondus lockdown	2/2
4	2/6	Ch17: Blood	Ex. 20-1 Formed Elements of Blood;	2/13
5	2/13	Ch 21: The Immune System: Innate and Adaptive Body Defenses	Ex. 20-2 ABO & Rh Blood Groups; Ex. 20-4 Blood Donation Ex. 20-3 Murder Mystery Game;	2/20

6	2/20	Ch 20: The Lymphatic System and Lymphoid Organs and Tissues	Ex. 21-1 Lymphatic System Anatomy; Ex. 21-2 Lymphatic Organ Histology; Ex. 21-3 The Immune Response	2/27
	2/21-23	Exam 2 (Ch 17, 20, 21)	Online – Respondus lockdown	2/23
7	2/27	Ch 22: The Respiratory System	Ex. 22-1 Respiratory Anatomy; Ex 23-2 Pulmonary Volumes & Capacities; Ex. 23-3 pH and Ventilation; Construct a Lung Handout	3/6
8	3/6	Ch23: The Digestive System	Ex 24-1 Digestive System Anatomy;	3/13
9	3/13	Ch24: Nutrition, Metabolism, and Energy Balance	Lactase Enzyme Activity; Ex 24-4 (Time to Trace!)	3/20
	3/14-16	Exam 3 (Ch 22,23,24)	Online – Respondus lockdown	3/16
10	3/20	Spring Break	Campus closed	3/20
11	3/27	Ch 25: The Urinary System	Ex 25-1 Urinary System Anatomy	4/3
12	4/3	Ch 26: Fluid, Electrolyte, and Acid-Base Balance	Ex 26-1 Kidney Dissection; Ex 26-3 Time to Trace!. Urinalysis Handout	4/10
13	4/10	Exam 4 (Ch 25, 26)	On campus	4/10
14	4/17	Ch 27: Reproductive System	Ex. 27-1 Male Reproductive Anatomy; Ex. 27-2 Female Reproductive Anatomy	4/24
15	4/24	Ch 28: Pregnancy and Human Development	Ex. 28-1 Fertilization and Implantation. Ex. 28-2 Embryogenesis, Fetal Development and Fetal Cardiovascular Anatomy; Ex. 28-3 Heredity	4/30
16	5/1	Exam 5 (Ch 27, 28)	On campus	5/1

Institutional Policies and Guidelines

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook https://www.com.edu/student-services/docs/Student_Handbook_2024-2025_v2.pdf. *An appeal will not be considered because of general dissatisfaction with a grade,*

penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.

Academic Success & Support Services: College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

ADA Statement: Any student with a documented disability needing academic accommodations is requested to contact:

Kimberly Lachney, Student Accessibility Services Coordinator

Phone: 409-933-8919

Email: AccessibilityServices@com.edu

Location: COM Doyle Family Administration Building, Student Success Center

Textbook Purchasing Statement: A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

Withdrawal Policy: Students may withdraw from this course for any reason prior to the last eligible day for a "W" grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1st 8-week session is February 26. The last date to withdraw from the 16-week session is April 21. The last date to withdraw for the 2nd 8-week session is April 30.

FN Grading: The FN grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The FN grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the FN grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an FN grade.

Early Alert Program: The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

Resources to Help with Stress:

If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <https://www.com.edu/community-resource-center/>. College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life

issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at deanofstudents@com.edu or communityresources@com.edu.

Nondiscrimination Statement:

The College District prohibits discrimination, including harassment, against any individual on the basis of race, color, religion, national origin, age, veteran status, disability, sex, sexual orientation, gender (including gender identity and gender expression), or any other basis prohibited by law. Retaliation against anyone involved in the complaint process is a violation of College District policy.
