Course Description: This is an introduction to the field of psychology, dealing with such topics as the scientific method and theories, neuroscience and behavior, perception, consciousness, learning, memory, intelligence, motivation, emotion and stress, personality, psychological disorders, and therapy.

Course Requirements:

CHAPTER QUIZZES:

There will be a total of 16 Chapter quizzes that will be done online in our D2L classroom. (See the section of “Required Textbook/Materials”) with each quiz assignment having a **maximum of 100 points**. Quizzes will be assigned for each chapter.

All students must complete the chapter quizzes by the scheduled date. There are **NO Make-up quizzes**.

NOTE: Please be aware that although you have one full week to complete the chapter quizzes it is discouraged to start close to the due date.

DISCUSSION BOARDS:

Each student will be required to complete 1 Introduction Forum and 14 Discussion Forum posts throughout the semester. These posts will allow you to discuss a topic related to the assigned chapter in greater depth.

In the Introduction Forum, each student will be required to complete an Introduction Post during the first week of classes. This post will allow you to introduce yourself to the class with a short biography. In this biography, you can include any details about yourself that will allow your fellow students to “put a person to the name”. The Introductions Forum Post will be worth a **100 points**.

Each Discussion Forum Post has the following instructions:

1. Review the assigned article(s) or video(s)

2. Post a brief description of the topic and/or answer required questions
3. Post a brief summary of their thoughts on the topic
4. Reply to a minimum of two other student's posts

Each Discussion Forum Post will be worth a **maximum of 100 points**.

You will earn up to 35 points for your description of the topic and what you have learned, up to 35 points for your thoughts on the topic, and up to 30 points for your reply to another student.

NOTE: Responses can be deleted at the discretion of the instructor. Responses will only be deleted if the instructor determines them to be aggressive, rude, degrading, etc., and they may be deleted without notice to the student. All such responses will receive a grade of 0 for the deleted thread. Please refer to the syllabus for more information regarding student conduct and expectations.

PEER REVIEWED JOURNAL ANALYSIS: Using the online librarians and library resources, students will be required to find two peer-reviewed research studies on any topic of their choosing (but the two research studies should be on similar topics). Read the peer-reviewed research articles, discuss the two articles, and write a critical analysis on the research.

PRESENTATIONS:

Throughout the semester, students will have presentations as individuals and in groups. Each student will be required to complete 3 presentations throughout the semester. These Presentations will help students examine various topics in the field of psychology and identify how these impact our society on the community, state and national level. Further, this presentation will allow students to examine the importance of being knowledgeable of their own personal biases and/or stereotypes, and how they can be more informed in their future interactions.

Each Presentation Post has the following instructions:

1. Research the assigned topic
2. Develop a 7-10 minute presentation on the topic. Specific instructions will be provided.
3. Share your presentation with the class. Specific instructions will be provided

Each Presentation will be worth a **maximum of 100 points**. You will earn up to 30 points for Quality of Information and Organization, up to 30 points for Quality of Verbal Communication, up to 30 points for Quality of Non-Verbal Communication and up to 10 points for the Written Summary.

ALL PRESENTATIONS LESS THAN 7 MINUTES WILL NOT BE GRADED!

EXAM:

There will be a total of 4 Exams, with each exam having a maximum of 100 points. Each exam will cover 4 chapters and have two parts. Part 1 of the exam will have a total of 40 questions (true/false, multiple choice, matching) and Part 2 of the exam will be short answers or an essay. Exams will be timed and you will have the total class time to complete each exam.

All students must complete the exams in class. There are **NO Make-up Exams**. Students arriving to the exam more than 20 minutes late will not be allowed to take the exam.
