The student is expected to log into the course website two to three times per week to keep abreast of any changes or additional information. Notification of course changes will be through the Announcement section as well as e-mail.

Skills Labs: The course will include approximately 18 - 22 hours of skills exercises, during which the student will be exposed to hands-on instruction in fire investigative techniques. TCFP skill sheets will be used for evaluation, and the average of all exercises will count for 25% of the final grade. Exact dates and times for these exercises are noted in this syllabus.

In order to obtain a passing grade for this course, Skill Assignments must be completed regardless of whether or not students are seeking Fire Investigator certification with the TCFP. Skills Assignments are graded utilizing applicable TCFP Skill Evaluation Sheets, which are provided in the course.

Students must receive a satisfactory rating for all items on the Skills Evaluation Sheet. Grades for skills are Pass or Fail, i.e., if one item of the skill is not completed successfully, the overall grade for the skill is Fail. Students must correct the item(s) and resubmit the skill to obtain a Pass grade. It is extremely important to review the skill sheet to ensure that each item of the skill has been satisfactorily addressed in your response.

Dates for Final Exam are listed in the Course Outline/Schedule. The student is responsible for verifying the operating hours of the testing center prior to this date.
