Course Description: Industrial Economics is part of the Process Technology Alliance Curriculum, sponsored by the North American Process Technology Alliance (NAPTA, formerly GCPTA). The two-year program has been created to train students for careers as process technicians in the chemical and refining process industries.

The primary focus is to help students understand that, as process technicians, almost everything they do affects the company's bottom line. Emphasis is placed on recognizing areas where a business can not only improve its performance, but also enhance its income. The major areas of emphasis are budgeting, inventory control, faster product delivery and reduced outstanding accounts-receivable days.

Directions for filing an appeal can be found in the student handbook. <https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf. *An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course.
