

DFTG 2438 201 HY Final Project – Advanced Drafting
DFTG 2438 201HY
Final Project – Advanced Drafting
Spring 2023
Thursday 6:00 Lab STEM 134

Instructor Information:

Name: Andrew Gregory **Email:** Agregory2@com.edu
Office: ICB 313-14 **Phone:** 409 933-8161

Student hours and location:

T, W, 2:00- 5:00 pm ICB 313-14 F 1:00-2:30 TEAMS

Required Textbook:

No textbook

Course Description:

An advanced course in which students produce a comprehensive project from conception to conclusion.

Course requirements:

A self-developed Final Project of your design.

Determination of Course Grade/Detailed Grading Formula

Students will be graded on "points-earned" criteria. A grade of C or above is considered acceptable.

Assessments	number	Pts ea	Total Point Value
Weekly Critique Attendance	15	5	75
Initial Project Proposal	1	25	25
Project Research	1	25	25
Work Plan	1	25	25
Mid-point presentation	1	100	100
Final Project Presentation – Drawings/Model	1	200	200
PowerPoint Presentation with Audio/Video	1	50	50
TOTAL			500

*Individual Assignment due dates and criteria are listed on the schedule

Grading Scale:

Above 90% = A 80% - 89% = B
70% - 79% = C 60% - 69% = D
Below 60% = F

Make-Up Policy:

Late work will incur a 20% penalty. If there is a documented medical or family emergency, please see me to discuss a work plan to get you caught up.

Attendance Policy:

Attendance is required at the lab sessions. In addition, you are required to log in to 'Blackboard' a minimum of once per week.

Communicating with your instructor:

ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means.

I receive my college email on my phone. Typically, emails are answered within a day or less. Course assignments will be graded within a week. I would like to have all the previous week's assignments graded by Lab Time.

Student Learner Outcomes:

Upon successful completion of this course, students will:

1. Conceptualize, design and present a complete project/portfolio in a prescribed discipline.
2. Integrate problem solving and related technologies to identify solutions.
3. Use discipline specific industry standards and produce documentation.

Core Objectives

This course addresses the following core objectives

1. **Critical Thinking Skills:** Students will demonstrate creative thinking, innovation, and the ability to analyze, evaluate, and synthesize information.
2. **Communication Skills:** Develop, interpret, and express ideas through written, oral, and visual communication.

Table Mapping SLO's, Core Objectives and Assignments

Student Learner Outcome	Maps to Core Objective	Assessed via this Assignment
1. Conceptualize, design and present a complete project/portfolio in a prescribed discipline.	Communication-Visual	Final Project
2. Integrate problem solving and related technologies to identify solutions;	Critical Thinking	Mid Semester Submission
3. Use discipline specific industry standards, and produce documentation		Project Research

Academic Dishonesty:

Any incident of academic dishonesty will be dealt with in accordance with college policy and the Student Handbook. Academic dishonesty – such as cheating on exams is an extremely serious offense and will result in a grade of zero on that exam and the student will be referred to the Office of Student Conduct for the appropriate disciplinary action.

Student Concerns:

If you have any questions or concerns about any aspect of this course, please contact me using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact Professor Sheena Abernathy, Chair Science and Engineering Department at sabernathy@com.edu or 9338330.

Course outline:

Week 1	Course Introduction and brainstorming about final project
Week 2	Desk Critique – individual appointments to discuss Initial Project Proposal
Week 3	Desk Critique Individual Project Proposal Due
Week 4	Desk Critique
Week 5	Project Research Due
Week 6	Desk Critique Project Work Plan Due
Week 7	Desk Critique
Week 8	Desk Critique
Week 9	Desk Critique
Week 10	Desk Critique
Week 11	Desk Critique Mid Project Review due
Week 12	Desk Critique
Week 13	Desk Critique

Week 14	Desk Critique
Week 15	Desk Critique Project Due
Week 16	Presentation Due

Institutional Policies and Guidelines

Grade Appeal Process:

Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook. https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf. *An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.*

https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf

Academic Success & Support Services:

College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

ADA Statement:

Any student with a documented disability needing academic accommodations is requested to contact Kimberly Lachney at 409-933-8919 or klachney@com.edu. The Office of Services for Students with Disabilities is located in the Student Success Center.

Textbook Purchasing Statement:

A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

Withdrawal Policy:

Students may withdraw from this course for any reason prior to the last eligible day for a "W" grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw is March 1 for the 1st 8-week session, April 24 for the 16-week session, and May 3 for the 2nd 8-week session.

****It is the responsibility of the student to withdraw from the course officially by contacting Admissions and completing the necessary paperwork.**

F_N Grading:

The F_N grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The F_N grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the F_N grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an F_N grade.

Early Alert Program:

The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

Resources to Help with Stress:

If you are experiencing stress or anxiety about your daily living needs including food, housing or just feel you could benefit from free resources to help you through a difficult time, please click here <https://www.com.edu/community-resource-center/> College of the Mainland has partnered with free community resources to help you stay on track with your schoolwork, by addressing life issues that get in the way of doing your best in school. All services are private and confidential. You may also contact the Dean of Students office at deanofstudents@com.edu or communityresources@com.edu.

Success Tips for Students, Course Delivery & Expectations:**Course Communication:**

To communicate with me in the expedient manner use my COM email.

Course Delivery & Expectations:

The course content is delivered via the online portion through reading, watching demonstrations on a screencast, and you completing the Essentials and Beyond drawing problem. A short five-question quiz is also given for each chapter. This is to ensure that you read the text.

You will need to log in each week. The reading, watching the demos, and completing the Essentials and Beyond problem will probably take between 4 and 8 hours outside of lab time.

The lab is intended to address your questions on the current chapter does not present it in its entirety. Therefore, you should have completed the reading, reviewed the supplemental material before the weekly lab. The drawing problems, discussion forum, and quiz are due the night prior to our lab meeting at 10:00 pm.

All drawing problems should be attached to the course assignment in the online course. The files should be in their native format, meaning, if it is an AutoCAD drawing, submit the AutoCAD file.

Course Prerequisite:

DFTG 1305 and DFTG 1409 **With a grade of 'C' or better.**

Technology Prerequisite:

You must complete the free [Online Learners workshop](#) Before you gain access to this course online via D2L.

Course Format:

The structure of this hybrid course is the topics are introduced in the lab, and the exercises are completed in the collective setting. Online you continue practicing and mastering the skills and concepts for the week by completing the Essentials and Beyond. This exercise combines all the commands and concepts presented in the chapter exercises. There is a video showing step-by-step how to complete the Essentials and Beyond. In addition, you complete a quiz and discussion forum online. Both the online and lab parts of the class are essential. At the lab session, we will open with a discussion of issues or problems the group encountered in the previous week, provide more face-to-face demonstrations, and review your work one-on-one at your computer.

Technology Outage Policy:

It is your responsibility to complete the coursework in a timely manner. THE ONLY EXTENSION OF DUE DATES related to technology outage is an outage of the College of the Mainland's systems, such as the internet connection to the College. If your computer or internet provider is experiencing a technological outage, other options include completing the work at the College or at another location that has WIFI.
