

VNSG 1230 – 501CL
Maternal-Neonatal Nursing
Fall 2021 – 8 Weeks
Tuesdays and Wednesdays 1pm – 4pm
Location: Room 237 Vocational Nursing Classroom

Instructor Information: Ms. Ute Holch RN, MHA, BSN, CCRN-K
eMail: Uholch@com.edu
Office Phone: 409-933-8715
Cell Phone: 713-870-0285

Student hours and location: Classroom 237 every Tuesday at 08am to 09am.

Required Textbook/Materials:

Introduction to Maternity and Pediatric Nursing. (INTRO TO MATERNITY/PED NURSING 8E), 8th edition, Leifer, G. (2019). ISBN 9780323483971

Elsevier Adaptive Quizzing for Introduction to Maternity and Pediatric Nursing (EAQ INTRO MAT & PEDS (AC) 8E) 8th edition, Leifer & Elsevier, ISBN 9780323642767

College of the Mainland. (2021). *Vocational Nursing Program Student Handbook*, online http://build.com.edu/uploads/sitecontent/files/nursing-student-resources/22020-2021_College_of_the_Mainland_VN_08212020.pdf

https://www.com.edu/student-services/Student_Handbook_2020-2021_v3.pdf

Course Description:

The course provides study of the biological, psychological, and sociological concepts applicable to basic needs of the family including childbearing and neonatal care. Utilization of the nursing process in the assessment and management of the childbearing family. Topics include physiological changes related to pregnancy, fetal development, and nursing care of the family during labor and delivery and the puerperium. Faculty reserve the right to make changes to the syllabus as they deem necessary (Lecture 32, Lab 16 hours, Credit 2, Contact Hours 48, 8-week course).

Prerequisites: VNSG 2331 and VNSG 1261 with a grade of "C" or better. Co-requisites: VNSG 1119, VNSG 1234, VNSG 1432, VNSG 2460.

Course requirements:

1. Assist in the assessment of obstetric and newborn patients and their families using a structured data collection tool with primary and secondary sources of information.
2. Analyze focused assessment data to prioritize problems that can be addressed by the nurse.
3. Assist in the development of the plan of care that identifies patient goals/outcomes and nursing interventions utilizing evidence-based practice and in collaboration with obstetric patients and their newborns from diverse spiritual beliefs and cultural backgrounds, their families, and the health care team.
4. Implement the plan of care within legal and ethical parameters in accordance with the scope of practice to provide safe, compassionate, ethical nursing care for obstetric and newborn patients and their families.
5. Apply effective communication when implementing teaching plan for obstetric patients, their newborn, and their families.
6. Assists in the evaluation of effectiveness of patient goals and related nursing interventions and assists in modification of the plan of care in response to changing patient needs in obstetric and newborn patients.
7. Assists in the coordination of human, information, and material resources in providing care for assigned obstetric and newborn patients and their families.
8. Use standards of nursing practice including the Texas Nursing Practice Act (NPA), the Texas Board of Nursing, accreditation organizations, and rules mandated by the federal, state, and local governments to provide care to promote quality and a safe environment for obstetric and newborn patients, self, and others.
9. Collaborate and communicate with obstetric patients, their families, and the interdisciplinary health care team to assist in the planning, implementation, and coordination of patient-centered care when caring for obstetric and newborn patients.
10. Serve as a health care advocate in activities that focus on financial and community resources, improving the safety, quality, and health care of obstetric and newborn patients.

Determination of Course Grade/Detailed Grading Formula:

All assignments, including pass/fail, must be submitted to pass the course. The exam average must be at least $\geq 75\%$ before non-examination assignment grades are calculated into the final course grade. See Grade Determination & Calculation in the Nursing Student Handbook.

Computation of grades	%
EAQ Quizzes (4 custom 4 p each/4 Mastery 2 p each)**	20
Exam 1*	20
Exam 2*	20
Exam 3*	20
HESI Final Exam*	20

Total Points * ≥ 75% exam average required to pass the course **Weighted assignments calculated only after 75% exam average met	100%
--	-------------

Grading Scale

- A = 90 - 100.00
- B = 80 - 89.99
- C = 75 - 79.99*
- D = 60 - 74.99
- F = < 60

*A minimum final grade of “C” is required to pass this course.

Late Work, Make-Up, and Extra-Credit Policy: All course assignments are expected to be completed and submitted on the specified due date. See Late Assignment Policy in the Nursing Student Handbook.

Attendance Policy:

See attendance policy in the Nursing Student Handbook for matters of tardiness and attendance.

Communicating with your instructor: ALL electronic communication with the instructor must be through your COM email. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means. Professor Holch is available for students during office hours on Tuesdays from 09am to 4:30pm, by appointment only, as well as by special request. Meetings are available in person, via Microsoft Teams invites, and/or via phone. To respect everyone’s time, students are expected to call/text/email for appointments in a timely manner. After hours issues may be resolved by texting Professor Holch first, then awaiting an invite for telephone conversation or via a meeting on Microsoft Teams.

Academic Dishonesty: Any incidence of academic dishonesty will be dealt with in accordance with college policy and the Student Handbook. Academic dishonesty, such as cheating on exams, is an extremely serious offense. See Behavior/Conduct policy in the Nursing Student Handbook.

Plagiarism: Plagiarism is using someone else’s words or ideas and claiming them as your own. Plagiarism is a very serious offense. Plagiarism includes paraphrasing someone else’s words without giving proper citation, copying directly from a website, and pasting it into your paper, using someone else’s words without quotation marks. Any assignment containing plagiarized material will receive a grade of zero and the student will be referred to the Office of Student Conduct for the appropriate disciplinary action. Also see the Behavior/Conduct policy in the Nursing Student Handbook.

Avoiding Plagiarism: <http://www.plagiarism.org/>

Student Concerns: If you have any questions or concerns about any aspect of this course, please contact me using the contact information previously provided. If, after discussing your concern with me, you continue to have questions, please contact Dr. Amanda Ordonez, DON, at 409-933-8141/mordonez@com.edu.

Course outline: (include calendar with lecture topics, due dates)

Institutional Policies and Guidelines

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook.

https://www.com.edu/student-services/Student_Handbook_2020-2021_v3.pdf

An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.

https://www.com.edu/student-services/Student_Handbook_2020-2021_v3.pdf

Academic Success & Support Services: College of the Mainland is committed to providing students the necessary support and tools for success in their college careers. Support is offered through our Tutoring Services, Library, Counseling, and through Student Services. Please discuss any concerns with your faculty or an advisor.

ADA Statement: Any student with a documented disability needing academic accommodations is requested to contact Holly Bankston at 409-933-8520 or hbankston@com.edu. The Office of Services for Students with Disabilities is located in the Student Success Center.

Counseling Statement: Any student needing counseling services is requested to please contact Holly Bankston in the student success center at 409-933-8520 or hbankston@com.edu. Counseling services are available on campus in the student center for free and students can also email counseling@com.edu to set up their appointment. Appointments are strongly encouraged; however, some concerns may be addressed on a walk-in basis.

Textbook Purchasing Statement: A student attending College of the Mainland is not under any obligation to purchase a textbook from the college-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer.

Withdrawal Policy: Students may withdraw from this course for any reason prior to the last eligible day for a “W” grade. Before withdrawing students should speak with the instructor and consult an advisor. Students are permitted to withdraw only six times during their college career by state law. The last date to withdraw from the 1st 8-week session is October 6.

F_N Grading: The F_N grade is issued in cases of *failure due to a lack of attendance*, as determined by the instructor. The F_N grade may be issued for cases in which the student ceases or fails to attend class, submit assignments, or participate in required capacities, and for which the student has failed to withdraw. The issuing of the F_N grade is at the discretion of the instructor. The last date of attendance should be documented for submission of an F_N grade.

Early Alert Program: The Student Success Center at College of the Mainland has implemented an Early Alert Program because student success and retention are very important to us. I have been asked to refer students to the program throughout the semester if they are having difficulty completing assignments or have poor attendance. If you are referred to the Early Alert Program you will be contacted by someone in the Student Success Center who will schedule a meeting with you to see what assistance they can offer in order for you to meet your academic goals.

COVID-19 Statement: All students, faculty, and staff are expected to familiarize themselves with materials and information contained on the College of the Mainland’s Coronavirus Information site at www.com.edu/coronavirus. In compliance with Governor Abbott's May 18 Executive Order, face coverings/masks will no longer be required on COM campus. Protocols and college signage are being updated. We will no longer enforce any COM protocol that requires face coverings. We continue to encourage all members of the COM community to distance, when possible, use hygiene measures, and get vaccinated to protect against COVID-19. Please visit com.edu/coronavirus for future updates.

Alternative Online Classroom requirements for unexpected situations:

- A desktop or laptop computer with the following specifications (PC or Mac):
 - o 2 GB Free HDD space
 - o 4 GB RAM Required, 8 GB recommended
 - o CPU equivalent to Intel i3 2+GHz
 - o Operating System:
 - § MAC OS 10.13, 10.14, or 10.15 ONLY, or
 - § Windows 10 (version 1809 or 1903) ONLY

UNIT I

AN OVERVIEW OF MATERNITY AND PEDIATRIC NURSING

1. The Past, Present, and Future

Objectives

1. Recall the contributions of persons in history to the fields of maternity and pediatric care.
2. List the organizations concerned with setting standards for the nursing care of maternity and pediatric patients.
3. State the influence of the federal government on maternity and pediatric care.
4. Understand the legal responsibilities of the nurse to report certain diseases or conditions to the public health authorities.
5. Contrast present-day concepts of maternity and childcare with concepts of the past.
6. Discuss how culture affects childbirth and childcare.
7. List the five steps of the nursing process.
8. Define critical thinking.
9. Discuss why statistics are important and the common terms used in expressing statistical data.
10. Compare and contrast a nursing care plan with a clinical pathway.
11. Discuss the role of critical thinking in the nursing process and in clinical judgment.
12. Examine the importance of documentation as a nursing responsibility.
13. Discuss the objectives of Healthy People 2030 as it relates to maternity and pediatric care.
14. Describe the role of the community health nurse as a health care provider.

UNIT II

MATERNAL-NEWBORN NURSING AND WOMEN'S HEALTH

2. Human Reproductive Anatomy and Physiology

Objectives

1. Define each key term listed.
2. Describe changes of puberty in males and females.
3. Identify the anatomy of the male reproductive system.
4. Explain the functions of the external and internal male organs in human reproduction.
5. Describe the influence of hormones in male reproductive processes.
6. Identify the anatomy of the female reproductive system.
7. Explain the functions of the external, internal, and accessory female organs in human reproduction.
8. Discuss the importance of the pelvic bones to the birth process.
9. Explain the menstrual cycle and the female hormones involved in the cycle.
10. Discuss the physiological responses of the woman during coitus.

3. Fetal Development

Objectives

1. Define each key term listed.
2. Describe the process of gametogenesis in human reproduction.
3. Explain human fertilization and implantation.
4. Describe embryonic development.
5. Describe fetal development and the maturation of body systems.
6. Describe the development and functions of the amniotic fluid, placenta, and umbilical cord.
7. Compare fetal circulation with circulation after birth.
8. Explain the similarities and differences in the two types of twins.

4. Prenatal Care and Adaptations to Pregnancy

Objectives

1. Define each key term listed.
2. List the goals of prenatal care.
3. Discuss prenatal care for a normal pregnancy.
4. Explain the nurse's role in prenatal care.
5. Calculate the expected date of delivery and duration of pregnancy.
6. Differentiate among the presumptive, probable, and positive signs of pregnancy.
7. Describe the physiological changes that occur during pregnancy.
8. Identify nutritional needs for pregnancy and lactation.
9. Discuss the importance and limitations of exercise in pregnancy.
10. Describe patient education related to travel and common discomforts of pregnancy.
11. Discuss nursing support for emotional changes that occur in a family during pregnancy.
12. Identify special needs of the pregnant adolescent, the single parent, and the older couple.
13. Apply the nursing process in developing a birth plan.
14. Identify the effects of medication ingestion on pregnancy and lactation.
15. Review immunization administration during pregnancy.

5. Nursing Care of Women with Complications During Pregnancy

Objectives

1. Define each key term listed.
2. Explain the use of fetal diagnostic tests in women with complicated pregnancies.
3. Identify methods to reduce a woman's risk for antepartum complications. Describe antepartum complications, their treatment, and their nursing care.
4. Discuss the management of concurrent medical conditions during pregnancy.
5. Describe environmental hazards that may adversely affect the outcome of pregnancy.
6. Describe how pregnancy affects care of the trauma victim.

7. Describe psychosocial nursing interventions for the woman who has a high-risk pregnancy and for her family.

6. Nursing Care of Mother and Infant During Labor and Birth

Objectives

1. Define each key term listed.
2. Discuss specific cultural beliefs the nurse may encounter when providing care to a woman in labor.
3. Compare the advantages and disadvantages for each type of childbearing setting: hospital, freestanding birth center, and home.
4. Describe the four components (“four Ps”) of the birth process: *powers*, *passage*, *passengers*, and *psyche*.
5. Describe how the four Ps of labor interrelate to result in the birth of an infant.
6. Explain the normal processes of childbirth: premonitory signs, mechanisms of birth, and stages and phases of labor.
7. Explain how false labor differs from true labor.
8. Determine appropriate nursing care for the intrapartum patient, including the woman in false labor and the woman having a vaginal birth after cesarean (VBAC).
9. Explain common nursing responsibilities during the labor and birth.
10. Describe the care of the newborn immediately after birth.

7. Nursing Management of Pain During Labor and Birth

Objectives

1. Define each key term listed.
2. List the common types of classes offered to childbearing families.
3. Describe the methods of childbirth preparation.
4. Describe factors that influence a woman’s comfort during labor.
5. Discuss the advantages and limitations of nonpharmacological methods of pain management during labor.
6. Explain nonpharmacological methods of pain management for labor including the nursing role for each method.
7. Discuss the advantages and limitations of pharmacological methods of pain management.
8. Explain each type of pharmacological pain management including the nursing role for each.

8. Nursing Care of Women with Complications During Labor and Birth

Objectives

1. Define each key term listed.
2. Describe each obstetric procedure discussed in this chapter.

3. Illustrate the nurse's role in each obstetric procedure.
4. Analyze the nurse's role in a cesarean birth.
5. Describe factors that contribute to an abnormal labor.
6. Explain each intrapartum complication discussed in this chapter.
7. Discuss the nurse's role in caring for women with each intrapartum complication.
8. Review the nurse's role in obstetric emergencies.

9. The Family after Birth

Objectives

1. Define each key term listed.
2. Describe how to individualize postpartum and newborn nursing care for different patients.
3. Describe specific cultural beliefs that the nurse may encounter when providing postpartum and newborn care.
4. Describe postpartum changes in maternal systems and the nursing care associated with those changes.
5. Modify nursing assessments and interventions for the woman who has a cesarean birth.
6. Explain the emotional needs of postpartum women and their families.
7. Recognize the needs of a grieving parent.
8. Describe the nursing care of the normal newborn (Phase 2).
9. Identify signs and symptoms that may indicate a complication in the postpartum mother or newborn.
10. Describe nursing interventions to promote optimal newborn nutrition.
11. Discuss the influences related to the choice of breastfeeding or bottle-feeding the newborn.
12. Explain the physiological characteristics of lactation.
13. Compare various maternal and newborn positions used during breastfeeding.
14. Plan appropriate discharge teaching for the postpartum woman and her newborn.
15. Identify principles of breast pumping and milk storage.
16. Discuss the principles of weaning the infant from the breast.
17. Describe techniques of formula preparation and feeding.
18. Discuss the dietary needs of the lactating mother.
19. Review appropriate discharge teaching for the postpartum woman and her newborn.

10. Nursing Care of Women with Complications after Birth

Objectives

1. Define each key term listed.
2. Describe signs and symptoms for each postpartum complication.
3. Identify factors that increase a woman's risk for developing each complication.
4. Explain nursing measures that reduce a woman's risk for developing specific postpartum complications.

5. Describe the medical and nursing management of postpartum complications.
6. Explain general and specific nursing care for each complication.
7. Compare and contrast mood disorders in the postpartum period.

11. The Nurse's Role in Women's Health Care

Objectives

1. Define each key term listed.
2. Explain aspects of preventive health care for women.
3. Describe each menstrual disorder and its care.
4. Explain each gynecological infection in terms of cause, transmission, treatment, and care.
5. Describe the various methods of birth control, including indications, side effects, and contraindications of each.
6. Describe how to use natural family planning methods for contraception or infertility management.
7. Explain the changes that occur during the perimenopausal period and after menopause.
8. Explain the medical and nursing care of women who are nearing or have completed menopause.

12. The Term Newborn

Objectives

1. Define each key term listed.
2. Briefly describe three normal reflexes of the newborn, including the approximate age of their disappearance.
3. Demonstrate the details of the physical assessment of the newborn.
4. State four methods of maintaining the body temperature of a newborn.
5. Define the following skin manifestations in the newborn: lanugo, vernix caseosa, mongolian spots, milia, acrocyanosis, and desquamation.
6. State the cause and describe the appearance of physiological jaundice in the newborn.
7. State the methods of preventing infection in newborns.
8. Interpret discharge teaching for the mother and her newborn.

13. Preterm and Post Term Newborns

Objectives

1. Define each key term listed.
2. Differentiate between the preterm and the low-birth-weight newborn.
3. List three causes of preterm birth.
4. Describe selected problems and needs of preterm newborns and the nursing goals associated with each problem.

5. Describe the symptoms of cold stress and methods of maintaining thermoregulation.
6. Contrast the techniques for feeding preterm and full-term newborns.
7. Discuss two ways to help facilitate maternal-infant bonding for a preterm newborn.
8. Describe the family reaction to preterm infants and nursing interventions.
9. List three characteristics of the post term infant.

14. The Newborn with a Perinatal Injury or Congenital Malformation

Objectives

1. Define each key term listed.
2. List and define the more common disorders of the newborn.
3. Describe the classifications of birth defects.
4. Describe the symptoms of increased intracranial pressure.
5. Outline the nursing care for the newborn with hydrocephalus.
6. Discuss the prevention of neural tube anomalies.
7. Outline the preoperative and postoperative nursing care of a newborn with spina bifida cystica.
8. Differentiate between cleft lip and cleft palate.
9. Discuss the early signs of developmental hip dysplasia.
10. Discuss the dietary needs of a newborn with phenylketonuria.
11. Discuss the care of the newborn with Down syndrome.
12. Outline the causes and treatment of hemolytic disease of the newborn (erythroblastosis fetalis).
13. Devise a plan of care for a newborn receiving phototherapy.
14. Describe home phototherapy.
15. Discuss the assessment and nursing care of a newborn with macrosomia.
