The Invitation to the Lifespan, 4th edition: by Kathleen S. Berger

Course Description

This course will provide an overview of human development, from conception to birth. We will explore how people change over time in small ways and large. We will learn about three major domains of human development (biosocial, cognitive and psychosocial) at each life stage (infancy, toddlerhood, preschool, school-aged, adolescence, early adulthood, middle adulthood and late adulthood). Finally, we will deal with the topic of death and how we cope with the end of life in this society.

Course requirements

Communication: Communication will take place primarily through the Blackboard messaging/email system. This will utilize your COM email, so be sure to check this email regularly.

I prefer for students to contact me through the Blackboard “Send Email” button under the Course Tools, but a direct email to my COM email address will also be acceptable. Please put “Online LIFESPAN Student” in the subject area.

It is my policy to respond to discussion posts, messages, and emails within 48 hours, weekends and holidays excepted. I do hold my students to this same policy, so be sure to check your COM email regularly.

Quiz and Exam grades will be posted immediately to your Grade Center, and grades for Journal Posts and Discussion Forums will generally be updated twice a week on Wednesday and Saturday.

Participation: You are expected to log into the course a **minimum of FOUR times per week** and you should expect to spend at least 8 hours a week in the course reviewing lessons and other course material.

The discussion component of the course requires you to engage your fellow students in “conversation,” which requires you to regularly read and respond to posts. Due to the online nature of this course, it is up to the student to provide thoughtful and elaborate responses to discussion posts in order for the instructor to measure the students’ understanding of the material. In addition, any aggressive, rude, degrading, etc., posts may be deleted without notice to the student. All such responses will receive a grade of 0 for the deleted thread.

Please understand that minimal participation will result in minimal points.

More information about expectations in regards to your postings and replies is provided below in the Grading Rubrics.

Method of Instruction: This course primarily consists of online lessons and discussions provided by the instructor. Additionally, videos and other supplementary articles may be used to emphasize key issues. The online lessons parallel and reinforce assigned readings; therefore it is essential that students keep up to date with their online work. The online lessons will be open for one week, giving you plenty of time to complete the required materials.

Coursework Policy: All coursework will be assigned and opened throughout the summer session. For this course, semester begin at **12:00am** on the **MONDAY** of the first week and ends at 11:59pm on the Thursday of the final week.

EXCEPTION: Due to it being the last week of classes, **Week 5** will be short week. All assignments close at 11:59pm on Thursday of Week 5.

Late Work/Make-Up Policy: There are **NO** make-up quizzes, assignments, discussions or exams! With **NO** exception! I leave them all open for a wide period of time to give you every opportunity to complete them within the required period. The dates and times that the graded materials are available will be clearly visible in Blackboard. The due dates will also be posted on the course schedule.

Failure to complete an assignment: All assignments will be due by the date assigned by the professor. **NO LATE ASSIGNMENTS WILL BE ACCEPTED.**

Each student will be required to complete 1 Introduction Forum and 8 Discussion Forum posts throughout the semester. These posts will allow you to discuss a topic related to the assigned chapter in greater depth.

In the Introduction Forum, each student will be required to complete an Introduction Post during the first week of classes. This post will allow you to introduce yourself to the class with a short biography. In this biography, you can include any details about yourself that will allow your fellow students to “put a person to the name”. The Introductions Forum Post will be worth a **maximum of 35 points**.

NOTE: Responses can be deleted at the discretion of the instructor. Responses will only be deleted if the instructor determines them to be aggressive, rude, degrading, etc., and they may be deleted without notice to the student. All such responses will receive a grade of 0 for the deleted thread. Please refer to the syllabus for more information regarding student conduct and expectations.

Institutional Policies and Guidelines

Grade Appeal Process: Concerns about the accuracy of grades should first be discussed with the instructor. A request for a change of grade is a formal request and must be made within six months of the grade assignment. Directions for filing an appeal can be found in the student handbook. <https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf. *An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not an admissible basis for a grade appeal.* https://build.com.edu/uploads/sitecontent/files/student-services/Student_Handbook_2019-2020v5.pdf
