Required Textbook/Materials: *Invitation to the Lifespan 5th Edition*, by Kathleen S. Berger
Course Description: This course will provide an overview of human development, from conception to birth. We will explore how people change over time in small and large ways. We will learn about three major domains of human development (biosocial, cognitive, and psychosocial) at each life stage (infancy, toddlerhood, preschool, and school-age, adolescence, early adulthood, middle adulthood, and late adulthood). Finally, we will deal with the topic of death and how we cope with the end of life in many cultures.

Course requirements:

******SEMESTER PROJECT****** You will participate in a semester long project in which you will put the concepts that are discussed in class into practice. You will write journal entries in a diary or journal to tell a personal story of parenting a child. **Each of the journal questions must be answered and key words used correctly to obtain full credit.** Along with the prompts provided, you will also choose 5 more terms from the chapters to discuss in your journal – all the terms **must be highlighted and bolded within the journal entry. The last page should be an index of all the terms used (required and chosen) defining all the terms.**

Write your journals as if you are telling a story; be creative, use the terms correctly, and elaborate on each question. Answer each question creatively within the journal entry. **Journals should be at least 2 full pages, typed, double spaced using size 12 font with 1” margins.** Journals will be turned in via D2L by 11:59pm on the dates given *as an attached word document or pdf*. Do not write in the space provided by D2L.

Journals are worth 120 points each and will receive full credit if the following criteria are met:

- 60 points: terms are used correctly in **BOLD** and each question is **fully** answered and elaborated on in a unique way.
- 20 points: 5 more terms have been added from appropriate chapters and are **bolded/highlighted**.
- 30 points: specific **details** are given, and journal is creative.
- 10 points: index of all terms used.

In Class Assignments for each chapter: Various in-class activities that will include group assignments, reactions to TED talks, review of chapter and 1-minute questions. These cannot be made up if absent, so attendance is important.

Choice 1: Think of a problem in society that concerns you. Connect it with a chapter we have covered in class. Create a 3-slide power point. Slide one will be your ‘billboard’ that defines the problem and advertises your stance. What will make it stand out at people passing by? Why should others care about your concern? Slide 2 will be your researched suggestions to help solve the problem and how it connects to the chapter chosen. Slide 3 will be your three references.

Choice 2: Think of an organization you want to bring awareness to. Slide 1 will be the billboard that explains the organization and why they need support. Make sure the name and what they do is clear. What will make it stand out to those passing by? Slide 2 will be details about organization – are they a non-profit/how much do they give back/statistics about them. Make a connection to one of the chapters in the textbook. Slide 3 will be your three references.
